

## VILLAGE DADS PASS BUILDING CODE AFTER DELAY OF ABOUT TWO YEARS

### Rules Governing All Repairs, Construc- tions Stressed

### FIRE LIMITS ARE SET

Including the establishment of fire limits, laws regarding the construction of private and public buildings, exit rulings and various other features, the building ordinance has been passed after a delay of two years, by the Antioch Village council.

All constructions hereafter, must conform to the new code, and anything costing more than \$100 cannot be built without first obtaining a permit from the village clerk. The fees for permits have been decided in the code, and are fixed in proportion to the cost of the construction. A permit is to be issued or refused within 10 days after the date of filing with the council clerk.

#### FIRE LIMITS

Fire limits as described in the ordinance will include property south of the north line of public school property, west line of limits running south along east line of water tower lot and parallel with Main street, crossing Lake and running parallel with Victoria street to Selter lot, thence east through alley ("Quality" street) crossing Main to include Episcopal church property; and the east boundary to be a line approximately 250 feet east and parallel with Main to Depot street, and north on North avenue to include property of the Corona Pen factory.

Every building erected or enlarged within the first limits must be enclosed on all sides with walls constructed wholly of stone, brick, or other equivalent incombustible materials, and the roof must be of incombustible materials, also.

There are exceptions, however, and the following wooden structures may be built within the first limits: temporary one-story buildings for use of builders; one story sheds not more than 15 feet high, open on the long side, with sides covered with incombustible material.

### Fisherman Lands 11 lb. Pickerel at Channel Lake

Carl Lindmark, 329 N. Waller Ave., Chicago, landed a pickerel weighing eleven pounds and measuring thirty-seven and one-half inches long, in Channel Lake near the Blue Lantern boat house last Sunday.

Three years ago a pickerel weighing 13 pounds was caught in Channel Lake, but this is the first one landed since then which comes near to that record.

Mr. Lindmark was casting, using a shannon spinner. That same afternoon he caught a four pound pickerel.

Two fishermen from the municipal pier of Chicago, caught 300 blue gills in about five hours on crabs about two weeks ago in Channel Lake. These same fishermen are regular fishers in Channel Lake, but are not always as lucky as they were this time.

### Basketball Men Plan To Organize Team

Basketball fans may look forward with pleasure to some days, or nights, of real sport if plans for the organization of a community basketball team materialize, as it seems they will. Clifford Hook, former star of the local high school, who has had the complete coaching course at the University of Illinois, is heading the move. Others interested include Lester Nelson, Oliver Hughes, L. Laaco, Harry Willett, L. L. Palmer, and Ira Woodward, all having years of experience in the game and eligible for a community team. The boys are now accustoming to secure the services of a player for the position center. With this array of talent to start with, it is believed that a very fast team can be developed here. The boys plan to use the high school gym for their games.

### Burglars Force Open Door In Pavilion

Burglars forcing a door, gained entrance into the soft drink parlor located in the dancing pavilion adjacent to the Roxanna hotel at Fox Lake, owned by Duke Bein, early Tuesday morning. Although the place was ransacked the burglars obtained only cigarettes and candy representing a total value of \$25.00.

### OTHER DOINGS

#### Sewer Ordinance is Passed And Sidewalks To Be Built.

An ordinance providing for sewer extensions for Craig's subdivision was passed at the last meeting of the council. A similar ordinance for sewers in Thora's subdivision is expected to be passed as soon as the public hearing is held. The engineer's estimate of the cost of these projects has been in the hands of the council for several weeks.

"Sidewalks of Antioch" are to be a reality, according to an ordinance passed recently by the village council, providing for walks to be constructed along Main and Lake streets wherever needed, and also on south side of Pikeville road from Main east to village limits.

## SENATOR BARBOUR GIVES APPROVAL OF STATEMENT

### In Which Emmerson Told About Thompson's Ad- ministration.

### AS STATE'S ATTORNEY

Springfield, Ill., August 29.—In an open letter made public today, State Senator James J. Barbour of Evanston, who prosecuted the conspiracy and murder cases against John Looney and other members of the vice ring of Rock Island County, expressed approval of what Louis L. Emmerson said at Mt. Vernon about Floyd E. Thompson's administration of the office of state's attorney.

Senator Barbour declares that the close association and political relations existing between Thompson as state's attorney and the Rock Island chief of police, who was convicted with Looney, was generally accepted as the explanation of Judge Thompson's lukewarmness to the citizens' movement which finally resulted in the cleanup.

"My intense interest in the Republican primary of last April and in your leadership of the Republican party in the state as its nominee for governor," Senator Barbour says in his letter to Mr. Emmerson, "is my excuse for writing to publicly thank you and express approval for your splendid address at Mt. Vernon last week, in which you so completely met and with finally disposed of the charges which your Democratic adversary has for some while back been broadcasting to an unresponsive and unsympathetic public.

"Needless to say, his sincere friends are grieved at his uncalled for campaign of invective, and the reaction of distrust of this gentleman that has arisen in consequence of his utterances is amply justified by your apt reference to important incidents in his cyclonic career.

"It should be said that 'Looneyism,' so-called, in the city of Rock (Continued on page eight)

### Teacher's Institute Is To Be This Week

Institute for Lake county teachers will be held in Waukegan Friday and Saturday of week, T. A. Simpson, county superintendent of schools has announced.

Speakers for the two days are O. W. Neal, director of Stevens Point Normal school, Stevens Point, Wisconsin; N. R. Brantom of the geography department, Harris Teacher's college, St. Louis, Missouri; and Miss Alice Meighan, formerly an instructor in Escanaba, Michigan.

### HAPPY NEW YEAR!

The Antioch News Has Completed 41 Years of Service.

The Antioch News is now starting on its forth-second year, after having enjoyed 41 years of prosperity and the good-will of the community which it serves.

The News staff is starting its new year with a spirit of optimism, and it is hoped that a mutual pleasure may be forthcoming for the readers and the staff.

## WAUKEGAN GIRL IS SEEKING MORE HONORS SUNDAY

An unusual and enviable reputation is being gained by Regina Gilden, 14-year-old Waukegan girl who took first honors in the mile swim for women and first in the 100-yard swim for girls under 16 years of age at the Long Lake beach a week ago Sunday and who is the youngest of the I. W. A. C. swimming stars entered in the lake marathon next Sunday sponsored by the Chicago Herald and Examiner. Many other honors have been won by Miss Gilden this summer.

## PLANS ARE UNDER WAY FOR ATHLETIC CLUB

### Lake County May Have New Association; Griffith Leads.

Headed by H. M. Griffith, Ingleside, the man who put over the county championship swim meet at Long Lake 10 days ago, a group of men interested in athletics are considering the organization of an athletic club for Lake county. It is understood that the club is to be chartered, probably under the name "Lake County Athletic Club." The move is receiving the endorsement of many of the leading citizens of Lake county, among them: Harry Hall, Cal Alshuler, Dr. Kynberg, Jack Hoban, D. Jamison, T. Gilden, Waukegan, B. Carlton, Libertyville, and others in the various towns throughout the county.

The purpose of the club, as explained by Mr. Griffith, is to promote interest in athletics of all kinds, and to sponsor many sporting events of a major nature that the club hopes to bring to the county. The encouragement of boxing, wrestling, basketball, baseball and football, aquatic sports and the winter sports of skating and skiing, and the development of individual athletes in these sports are mentioned as desirable results possible to be accomplished by a well ordered athletic club.

Permanent quarters with real estate and a club house on some lake is a matter to be taken up in the future. Men behind the project report that they are receiving great encouragement.

## SENATOR CURTIS MAY GIVE TALK IN WAUKEGAN

### Vice-Presidential Nominee Is Invited By Business Club.

Negotiations have almost been completed by the American Business club of Waukegan to have Charles Curtis, vice-presidential nominee on the Republican ticket, speak in Waukegan October 24, the date when the United States Military band is scheduled to give a program.

Senator Curtis, a staunch dry advocate, and who is a firm friend of the farmer, will supplement the statements of Herbert Hoover, whose main emphasis in the recent campaign will be laid on governmental efficiency, Republican prosperity and internal improvements.

### Youth Who Drowns Known In Waukegan

Johnston Power, 21, well known socially in Waukegan, having been stationed near Great Lakes for some months, was drowned in Lake Michigan, Sunday, when he fell overboard from the yacht Phantom II, owned by Reuben H. Donnelly, millionaire printer and a resident of Lake Forest.

### Radiocasting Group To Be In Waukegan

Radio fans who enjoy tuning in to listen to the dance music furnished by Guy Lombardo and his Royal Canadians, will have an opportunity to dance to the music of this recording orchestra in the Valencia ballroom, Waukegan, Saturday night. The famous musicians are to appear one night only.

### How Much Is It?

Otto S. Klass Coins Expression Of Measurement To Tell Facts.

Maybe you can't exactly tell how much "fifty per cent more than pleased" is, but if you would like to know especially well, just ask Otto S. Klass, clothing dealer. Perhaps he will explain, for the expression is one of his own. And why did he use it? He was telling how much good his advertising prepared by the Antioch News had done. He says that he can't say 100 per cent more than pleased for he believes the limit has not been reached, and that business is going to keep growing. Optimistic, is Mr. Klass.

### Herbert Vos Is One Of School Directors

Antioch is represented on the board of directors of the Lake County Business college by Herbert Vos, proprietor of the Antioch Lumber and Coal company.

The Lake County Business college is the new name given the school formerly called the Waukegan Business college, but which was recently purchased by Paul W. Pettengill and associates. It is located on the fourth floor of the Waukegan State bank building. Extensive plans for enlarging the institution are being made.

## ANTIOCH VETERAN IS VICE COMMANDER OF COUNTY C. A. R.

One of the three remaining Civil War veterans of Antioch, Homer Stevens, was honored recently when he was elected one of the vice-commanders of the Lake County Soldier's and Sailor's association.

Mr. Stevens was elected during the Golden Anniversary celebration of the organization. During the last year nine members of the post have died. The two remaining members here besides Mr. Stevens are Joseph Haycock and A. J. Felter.

### Dance is Planned For Monday Night

When the Labor Day dance is given in the Twin Lakes ballroom in Twin Lakes, Wisconsin, next Monday night, Jack Higgins and his Royal Purple orchestra, which has proved so popular there all season, will furnish the music. The Fred Semrau Post 61, American Legion, is sponsoring the dance. Carl E. Rodemacher is manager. A new Ford roadster is to be given away.

### Former Resident Dies At Home in Florida

Formerly a resident of Antioch, Ernest Horton died in Tampa, Florida, August 20, from influenza. Mr. Horton was born and reared in Antioch, and served as marshal in this community for several years.

## PIN MONEY FOR HOOVER FUND

Mrs. Grace Sempie Burlingham, Missouri National Committeewoman, gives a check to John W. O'Leary, vice-treasurer of the G.O.P., covering contributions, without personal solicitation, of one dollar each from 1281 Missouri housewives. Mr. O'Leary is in charge of the "nickels and dimes" campaign, by which he hopes to obtain at least 600,000 subscribers to the Hoover fund.

## FLOATS, REAL FUN AND SHOOTING ARE PLANNED FOR FESTIVAL

### Clean, Wholesome Amusement is Promised by Committees in Charge; Republicans and Democrats to Have Nights

Colorful, gay, and symbolic floats will be entered in the parade which will mark the opening night of the Antioch Fall Festival, sponsored by the Business club of this city, September 13, 14, and 15.

The Festival is not being promoted for profit, the sole object being to gain favor for Antioch as the trading center of the lake region.

In the parade the opening night,

## MISS ROSING WINS AS MOST POPULAR GIRL AT FESTIVAL

### Antioch Girl and Partner, Phil Anderson, Winners Of First Prize.

Big crowds, good times and first class entertainment throughout featured the second annual American Legion festival which closed Sunday evening after a five night run at the Antioch Palace. Besides the regular entertainment, features offered nightly at the Palace, the Legion men provided many other amusements to delight the large crowds attending.

"The festival was a success financially and also as to entertainment features offered," said a Legionnaire who was a member of the festival committee. The Legion men are especially pleased over the success of the popularity contest, the first event of the kind ever conducted in Lake county.

Antioch Girl Most Popular  
Miss Hilma Rosing, bookkeeper for the first National Bank, was acclaimed the most popular of the young women who entered the contest. Sharing first honors with Miss Rosing was Phil Anderson, Lake Villa mail carrier. The two were first prize winners on the opening night, Miss Mildred Nickerson and Howard Mastine winning second.

Miss Mary Mors and George Cermak won first Thursday night, and the team of Miss Laura Winship and Richard Forbick, second. No contests were held Friday night when the boxing bouts were held at the Palace. On Saturday night the winners were Miss Evelyn Brokke and Frank Mackett, first, and Miss Edna Lowry and Wm. Steininger, second. In the finale Sunday night, Miss Rosing and Mr. Anderson topped the first prize of \$50; Mary Mors and George Cermak were awarded the second prize of \$25, and the third prize of \$15 went to Miss Laura Winship and Richard Forbick. The winners each night and at the finals were selected by popular applause.

various business houses will have floats, and bands, Boy Scouts, fraternal and social organizations will participate.

The Festival is to be held on Main street, the block extending from Lake to Orchard streets to be used as midway for exhibits by local merchants, demonstrations, and miscellaneous features. Permission for the use of the street has been granted by the village and state highway department. The street is part of state road 21.

There will be no games of chance or no lotteries. The committees in charge is planning to have only clean, wholesome amusement. Thursday night is to be known as Democratic night, and the State police band will be in Antioch, through the courtesy of Anton J. Cermak, Democratic candidate for the United States senate.

Friday night the Republicans will have full sway, and it will be known as Republican night.

Trap shooting will feature the program of Saturday afternoon, while festivities will come to a climax Sunday night with a large display of fireworks.

Those who are serving as leaders of committees are: A. M. Kral, chairman of the general committee; John L. Horan, highways and policing; W. R. Williams, demonstration booths and exhibits; George Bartlett, finance; L. M. Wetzel, parade; H. R. Smith, program; John Nixon, concessions; George Schlosser, lighting; H. B. Gaston, publicity; and Richard Macke, free entertainment. The Public Service company is arranging a large display.

The free entertainment acts to be offered each afternoon and evening are to be selected from hundreds of entertainment features available.

## INCREASE IS SHOWN AS 165 REGISTER FOR HIGH SCHOOL

### School Will Convene Tues- day—Prospects Are Good.

Antioch Township high school will open next Tuesday. The morning will be used to make assignments indicate books and supplies needed. The books may be obtained at the high school building after dismissal about 11 o'clock. There will be no school Tuesday afternoon.

There were 165 who registered last Monday. This is an increase over preliminary registration of former years and indicates that the enrollment will be larger this year, even though the number of eighth grade graduates was not so large as last year.

Everything is in readiness and the prospects are fine for the best year in the history of the school.

### Let Contract For State Highway No. 173

The contract for the construction of that section of highway No. 173, from Zion to Russell, was let Wednesday afternoon at Springfield, according to reports received here today. The entire survey of the route from Zion to Rockton has been let with the exception of that section from Russell to Richmond. All contracts are contingent upon the procuring of the right-of-way over the route as surveyed by the state department of highways.

Contracts for the construction of about 175 miles of highway were to be awarded at Springfield yesterday.

### Ohio Girl Accepts Position On News Staff

Miss V. Lndel Boden, of Athens, O., Wednesday began her duties as assistant editor of the Antioch News. Miss Boden comes to the News staff very highly recommended from the office of the Athens Daily Messenger where she was head desk copy clerk and feature news writer for that paper.

## RECIPES

The favorite meats, food for the summer, are chicken and lamb. A different way to cook both is suggested below:

## Spanish Chicken for Twelve

6 pound chicken and stock, 1 pound mushrooms, 2 cups chopped onion, 2 cups tomato sauce, 1 jar stuffed olives, 1 cup diced celery

Cook chicken until tender. Remove from bones, but leave in good sized pieces. Brown onions well in fat (chicken if possible). Add to tomato sauce and other vegetables. Use enough stock to make as much gravy as desired. When vegetables are tender add chicken. Thicken if necessary and add seasonings. Serve on patty shells.

## Lamb Shoulder With Vegetables

Cut up the meat in serving-sized pieces and brown in a little fat. Place in a baking dish with a cupful or more of diced carrots, an onion or two, adding a little boiling water, season well and bake until the meat is nearly tender enough to serve, then add a few small new potatoes which have been parboiled and peeled; cook until all the vegetables are tender. Serve from the dish or casserole.

An ordinary lamb stew, using one of the cheaper cuts, makes a most delicious meal, adding a pint of green peas long enough to cook them, then thicken the gravy with a little flour and butter cooked together; add seasoning to taste. Serve the meat with the peas and gravy around it. The one thing which seems to be lacking in the average cook is a knowledge of the value of seasoning. The hit-or-miss method of over-salting or undersalting, no tasting of foods while cooking to see if the food needs a bit of this or that, is a grave fault which never can be made too much of.

And a few suggestions for those handy one-dish meals:

## Baked Sausage Combination

Eight link sausages, one pound of sweet potatoes, one-half pound small onions, six medium sized tart apples, and salt, pepper and paprika, to taste.

Put the sausages into cold water and bring to boiling point. Drain. Place them in the bottom of a deep casserole or covered baking dish, over them arrange the uncooked sweet potatoes, pared and sprinkled with salt and pepper and over the potatoes place onions. Season well. Cover tightly and bake in a slow oven for one hour. Just before the hour is up, pare, core and halve the apples, remove the casserole cover and place them on top of the other ingredients. Increase the heat and cook until the apples are tender, when pierced with a fork. This is a delicious one dish meal.

## Salmon and Rice

1 can salmon  
1 cup boiled rice  
2 tablespoons butter  
½ teaspoon salt  
1 cup milk  
2 eggs  
Dash pepper  
Dash paprika

Mix together the flaked salmon, milk, boiled rice and beaten egg yolks. Stir in the melted butter, salt, pepper and paprika. Fold in the stiffly beaten egg whites. Pour into a buttered pan and bake in a moderate oven thirty minutes.

## Onion Sandwich

Chop half a cupful of Spanish onion, add olive oil, salt, pepper, and a little lemon juice or vinegar. Spread on buttered bread and serve as lunch on Sunday night, after church.

When it is necessary to go abroad after eating onions, try eating a small sprig of parsley. It subdues the odor.

## Almond Apples

Peel after washing, good flavored, firm apples which will keep the shape after cooking. Arrange them in a baking pan after they have been cooked in a lemon sirup until nearly soft; decorate them with quartered almonds, using the pointed end to thrust into the apple. Fill with the nuts so that they have the appearance of a porcelain, then brown in a hot oven while finishing the cooking of the apple. Serve sprinkled with powdered sugar.

## Flaked Ambrosia

1 package raspberry jello  
1 pint boiling water  
¾ cup sugar  
2 teaspoons lemon juice  
1 teaspoon orange juice  
1 pint heavy cream, whipped  
¼ teaspoon salt  
Dissolve jello in boiling water. Add sugar, lemon, and orange juice. Chill until firm. Break jello into small flakes with rotary egg beater. Mix with whipped cream, to which salt has been added. Serve in sherbet glasses, topped with a green cherry. Serves 6.

MODISH COSTUMES STRESS BLUE  
IN ONE TONE OR BLENDINGS OF BLUE

ONE, two, three, four—use as many blues as you like together in the carte blanche order issued by the mode. Fashion's followers are doing just that—dressing in blue from head to foot, if not always in one tone of blue then in blendings of blue.

Every shade from bright navy and middy to powder blue is fashionable. Stylists have a way of combining blues which is most attractive. This is accomplished very often by working the same material in several tones of blue. For instance in making a crepe de chine frock, sections of different blues are seamed together, with perhaps the deepest blue beginning at the neckline of blouse or skirt, diminishing to a light blue at the shoulders.

The chic flannel sports frock in the picture interworks, through clever seaming, insets in several shades of blue. This occurs both in the bolero blouse and the picturesque scarf. The major color is powder blue.

Often necessities are relied upon to accomplish a multi-blue color scheme. If a frock be powder or marine blue,

it is very modish to wear with it navy shoes, hat, belt, bag and gloves.

Then again the "trick is turned" by trimming a lighter blue in a darker shade, using perhaps navy buttons and piping. Often the material itself shows a blue compe, such as, for instance, certain mottled wash silks, which display pleasing blendings of blues. Also many of the new striped flannels and silks make a pretty play on blue in several tones.

In the matter of staple daytime frocks there is widespread enthusiasm shown for navy or middy blue flannel types. These are topped with navy hats and it is not unusual for the frock underneath to be of navy georgette. The ensemble is almost invariably completed with navy kid shoes and sheer hosiery to match.

Blue is even a favorite for silk lingerie, the favorite being fido blue. Then, too, dark blue tones are considered very smart for evening wear. The gown of navy or peacock blue sheer cre de lace is the last word from Paris.

JULIA BOTTOMLEY.

(c) 1928, Western Newspaper Union.

## Early American Poet

Walter J. Arnold in his biography of the poet says that Oliver Wendell Holmes' grandmother was the great-grandmother of Anne Bradstreet. Critics sometimes refer to her as the first poet in the American colonies.

## Penalty of Wealth

"He who attains great wealth," said Hi Ho, the sage of Chinatown, "may too often find himself at the mercy of those who pretend to enough wisdom to show him how to protect it."—Washington Star

## Hard to Explain Origin

Chile, or "Chili" is an Indian name whose origin has not been satisfactorily explained, no less than six derivations having been suggested. Perhaps it is from the Quichua chili or chili—cold—referring to the perpetual snow on many of the mountains.

## Lamp Swappers

The busies, exchange bureau in the world is the one at which millions of us are forever trying to "swap old lamps for new."—American Magazine

## Talking Over the Campaign

HERBERT HOOVER and Vice-President Dawes on the grounds of the latter's home in Evanston, Ill., where the vice-president offered to take the stump during the Hoover-Curtis campaign.

HENRY FORD  
BACKS HOOVERAuto Manufacturer Tells Why He  
Is Heart and Soul With  
Candidate.

SAYS FARMERS NEED HIM

Quality of Hoover's Ability Is a Fact  
Fully Demonstrated by  
His Record.

By HENRY FORD

In an article in the Evening Post.

I AM for Hoover for President because he has shown that he can do the job, pick the right man and do it through to success. Through his years—over since Belgium—he has been handling some of the biggest jobs in the world. He has made a success of every one of them. He has shown that he is not afraid of size.

The greatest job that the world has ever known is now before this country. It is so big that none of the old-line politicians even knows that it exists. We have developed this country just enough during the past six or seven years to know that much which was thought to be impossible can be made possible under the right leadership.

The task is to make such use of the experience we have gained that we can build rightly for the future. Otherwise we are going to lose all that we have gained.

We have the men, we have the money and we can make the tools for the job. But all these will be useless without leadership. That leadership, because the thing is national, must be in the President.

## Hoover Has Proved Leadership

The quality of Hoover's leadership requires no experimenting. It is a demonstrated fact.

But of what value is experience in the management of public affairs? What difference does it make who is President?

We all have our personal preferences, but a more preference is not important. If it be true, as is said, that no real issues are before the country, then any man of reasonable ability will make an acceptable President.

It is quite true that we have no real political issues. But we have an economic problem which looms greater than any of the old issues. It is not in politics. It cannot be described in the old language of politics.

No one is much concerned now with liberty and independence as tied up with the right to vote. We have all the rights our forefathers struggled for. We are concerned with new and different rights and responsibilities. The great issue is to develop this country to a point where every man and woman has the opportunity both to work and to play.

We have proved that wages can be made high. We have now to prove that they can be continuously paid—that there will be no periods of unemployment over which the worker cannot finance himself.

No man is wise enough to say how the future should be planned. But we have right at hand many enormous developments which will keep all of us busy.

## Transportation Brings Prosperity

This country could not have developed without transportation. That gave us national markets. These are mass markets, and thus we have been able to use better methods of manufacturing and get higher wages and lower prices. The first rapid transportation came through the railroads. Then came the automobile. The motor vehicles were at first thought to be competitors of the railroads, but now we know that they fit in together.

Business breeds business, and now we have not enough transportation. We must use the great waterways that have been put here for us to use both for transport and for power. Damming them for power improves them for transportation. Besides, the accumulation of these large bodies of water assists the rainfall. We have the Great Lakes and the Mississippi partly in use, but they are doing only a fraction of what they can be made to do. And many other projects only await further planning and coordination. For we know that we are in need of all kinds of transport—by air, by land and by water—and that each has its place and that each will make business for the others. This country needs to have its industry more spread out. Electricity and transport will do this.

This program will circulate billions of dollars. Don't say it will cost billions of dollars; say it will circulate billions of dollars. That is the true way of saying it.

We have the money and will have much more, for every dollar thus spent will produce several dollars. And undertaking this work will mean that for many years—perhaps forever—we shall not have to bother about unemployment anywhere. Both the farm and the factory will share in every dollar that is paid out to the men actually on the work.

It does not matter to me who does the work or who owns this work when done. It is use, not ownership, that counts.

The bare statement of what this country must do for its own well-

being also describes the kind of President it needs. It is not that the President is the director general of the nation or any other kind of absolute ruler. But someone has to be spokesman of the progressive need of the country.

## Hoover Knows Language of Progress

Hoover knows the language of modern progress better than any man. As an engineer, he has already planned the water and hydroelectric development of the country; and as a public officer with a knowledge of cause and effect, he knows the great present and future influence of these developments.

From time to time foreign nations have been foolish enough to imagine that by some system of control they could raise the prices to us of raw materials that we had to have. Some of the controls were official and others were semi-official. The British control of rubber was undertaken from the best of motives, but the temptation to boost the price was too strong, and so rubber went above a dollar a pound.

Hoover did not ask for legislation or make any protest—any foreign nation has the right to charge us what it pleases. It is up to us to defend ourselves. He called a meeting of the rubber men. They learned just how much rubber was already in the country and what could be done toward reclaiming rubber. That broke the artificial price and saved the users of automobiles at least half a billion dollars. Incidentally, it caused some of us to make a start toward getting our own sources of rubber. A man less versed in the ways of the world and of business would have made a great many speeches and probably had the country talking war—and accomplished nothing but the generation of a great deal of hard feeling.

## Can Do Big Things

This man Hoover not only has ideals but he can do things. He knows what to do and where to find the right men.

Among what are said to be issues are prohibition and what is called farm relief. We cannot elect a President who says in advance that he will take the oath of office with a mental reservation not to support the Constitution.

Some farmers are well off and others are not. But I cannot regard the farm as distinct from industry or as in opposition to industry. The one depends on the other. If the farmers do not earn money, then a great industrial market vanishes. If the workers do not earn, then the great market for farm products drops. Undoubtedly the freight on farm products is too high, just as is the freight on all products, but this will be cured

only by providing more and better methods of transport in the general plan of the development of the country. The farm is small business in a world of big business and only through the development of the country can it become big business. The man who earns money on the farm is doing so by applying the methods which have made industry. That the vast majority of farmers are not failures is shown by the buying power of the farm states.

The pensioning of various industries has been tried time and again everywhere in the world. It has never worked and can never work. And no more can it work with farming. In addition, this is a world of lowering prices. Progress is in the direction of learning how to pay wages and earn money with low prices. That has created big business. It will create big farming. We are now in the transition period and that is always a period of temporary hardship.

## Country's Development Just Begun

In short, we are not using what we have. There is a tendency to think of the country as already developed, when really the development has scarcely begun. We have already gone further than any other nation. We have done this by taking advantage of science in a large social way for the benefit of all. The whole country is in flux. If an industry or an industrial unit tries—even for a little while—to stand still, it never catches up again.

New methods in farming are coming in as quickly as are the new methods in industry. New methods are adopted in both industry and agriculture only because they make a fuller use of materials and men than did the old methods.

We have reached our present point without plan, but to go much further we need the opening of the country on so broad a basis that the Government itself must aid. The old system is going out of business; there is no cure but the wisdom to welcome the new era, which will not alone solve our present problems but abolish them utterly.

Herbert Hoover has the grasp not only of this country but of the world, and hence of this country's relations with the world. He is a young man; he belongs to the new era. He has the ideas of the new era and the proved ability to put them into practice. That is why I am for him.

Herbert Hoover was fully prepared by nature, education and experience to organize and direct the work in the department of commerce. As engineer, economist and student he brought to his task an unusual ability. As an executive he has directed the work of organizing and rounding out that important department.

## Straight and True as an Arrow

Every time anyone spends a dollar in this community for any purpose whatever, that dollar goes, straight and true as an arrow, toward helping to make this a better place in which to live.

It helps to build new homes, better roads, new schools, more churches. It makes possible the construction, the maintenance and the enjoyment of added comforts and conveniences for all of us.

We want the better things of life. We want this community of ours to grow and prosper.

We are taking a big step toward the realization of our desires if we remember and practice this simple plan.

## HOOVER RECALLS BOYHOOD DAYS ON IOWA FARM

Would Not Improve Old Swimming Hole, He Tells Former Neighbors.

SEES IOWA'S PROBLEMS  
LIKE THOSE OF NATION

Will Ask Lowden to Assist Him in  
Carrying Out Effective Farm Relief  
Program—Shows How Waterways  
Will Increase Rural Prosperity.

West Branch, Ia.—Black again at his birth place, among boyhood friends and neighbors, Herbert Hoover speaking here, recalled childhood memories, paid warm tribute to his former school teacher, who took him into her home after the death of his parents, and told his hearers that the problems of Iowa's farmers are those of all American agriculture.

Speaking freely and intimately to an immense throng in which he saw the faces of many old friends, Mr. Hoover spoke feeling of his home ties with Iowa and then passed to the discussion of the problems of his home state and of the nation.

His speech follows:

This is a homecoming. It hardly seems an occasion for a lengthy political speech—rather is it an opportunity to recall old associations and renew old friendships.

I am glad, a son of Iowa, to come back to the place where I was born. Here I spent the first ten years of my boyhood. Here my parents and my grandparents toiled, worshipped God, did their part in building this community, and now lie in the cemetery over the hill.

### Tribute to Teacher

During the past 41 years I have returned from time to time that I might pay respect to their memory, that I might express my appreciation of those kindly and sympathetic folk who, taking a boy to their hearts, wiped away the one grief of childhood. One of my vivid recollections was my earnest interest in the debate between neighbors and relatives when they were discussing not who was to assume me as a burden, but who was to take the boy as a member of their own flock. That is the spirit of the people of Iowa. It is the spirit of the thousands of villages and towns in all this wide land.

And I have no apology for even a more personal note. There is present here today a lady who took part in that debate and who was for years my teacher in your public school. She embodies the spirit of that vast body of women who not only teach and inspire our children but watch over their wider destinies. You have come to do me courtesy as a son of Iowa. I take this occasion to acknowledge my debt to that lady—Mrs. Curran.

There is no imprint upon our minds so deep as those of early boyhood—mine are the joys of Iowa—the glories of snowy winter, the wonder at the growing crops, the joining of the neighbors to harvest, the gathering of apples, the pilgrimage to the river woods for the annual fuel and nuts, the going to school, the interludes from work, in the swimming hole, fishing in creeks, the hunting for prairie chickens and rabbits in the hedges and woods—it is the entry to life which I could wish for every American boy and girl.

Again today I have had refreshment of spirit in return to these scenes. The swimming hole is still in use. It has the same mudbank. It is still impossible to dress without carrying mud home in one's inner garments. As an engineer I could devise improvements for that swimming hole. But I doubt if the decrease in mothers' grief at the homecoming of muddy boys would compensate the inherent joys of getting muddy.

### Aunt's Prophecy True

I have been to see the old Quaker meeting house. It has been moved across the street and replaced by a more modern structure. The old building appears at some time to have been turned into a moving picture house, which reminds me of the time I heard Aunt Hannah, moved in meeting, bitterly denounce the rise of modern ways and prophesy that if they were persisted in, that edifice dedicated to God would some day be transformed into a place of abomination. I do not place the movies in that class, but knowing Aunt Hannah's views on any form of human recreation, even to the godlessness of sliding down hill, I suspect that if she knew of this she would get great satisfaction at the consummation of her warnings.

This was always a Republican village. It was here that I received my first touch of the national life. I well recollect the hoisting of the flag at half mast over my father's blacksmith shop on the assassination of President Garfield. I also recollect well the torchlight procession in the Garfield election. I was not high enough to be permitted the conduct of a torch, but I participated by walking alongside for miles. At that time there were two or three Democrats in the town. I do not know today whether what seemed to me an enormous torchlight parade was instituted for their conversion or not, but I be-

lieve it was hopeless, because one of my boyhood friends and opponents in battle, who I expect is in this audience today, is a descendant of one of those Democrats and has been regenerated only in the last month.

I am proud to have been born in Iowa. I have oftentimes said that the good lord made it the richest stretch of agricultural land that ever blessed any one sovereign government. It was settled by the adventurous, the courageous, who fought their way across the ever extending frontier; they have builded here in so short a period as 75 years a state with the least poverty, the highest average intelligence, the most generous education, which ever blessed a single commonwealth.

### Sees Typical Changes

Here in West Branch can be found all the milestones of the changes which have come to American agriculture. Only a mile from here is the farm of my Uncle Allen, where I spent some years of my boyhood. That was just at the passing stake of the great pioneer movement. Many farms were still places where we tilled the soil for the immediate needs of the families. We ground our wheat and corn on toll at the mill; we slaughtered our hogs for meat; we wore at least a part of our own clothing; we repaired our own machinery; we got our own fuel from the woods; we erected our own buildings; we made our own soap; we preserved our own fruit and grew our own vegetables. Only a small part of the family living came by purchases from the outside. Perhaps 20 per cent of the products were sold in the markets to purchase the small margin of necessities which we could not ourselves produce, and to pay interest on the mortgage.

In a half century the whole basis of agriculture has shifted. We have improved seed and livestock; we have added a long list of mechanical inventions for saving of labor; we have increased the productivity of the land. And it has become a highly specialized business. There is no longer one industry called farming, but in fact a dozen industries. Probably over 80 per cent of its products now go directly or indirectly to the markets and probably over 80 per cent of the family living must be purchased from outside. In the old days when prices fluctuated in the Chicago market, at most they affected only 20 per cent of the income of the farm. A violent drop in prices could reduce the family income by only four or five per cent. Today the same fluctuation in price, affecting as it does 80 per cent to 100 per cent of the products of the farm, can take 25 or 50 per cent away from the family net income and make the difference between comfort and freedom from anxiety, or on the other hand, debts and discouragements.

I do not suggest a return to the greater security which agriculture enjoyed in its earlier days, because with that security were lower standards of living, greater toil, less opportunity for leisure and recreation, less of the comforts of home, less of the joy of living.

I am often conscious of sentimental regret for the passing of those old time conditions. I have sometimes been as homesick for the ways of those self contained farm homes of forty years ago as I have been for the kindly folk who lived in them. But I know it is no more possible to revive those old conditions than it is to summon back the relatives and friends in the cemetery yonder. While we recognize and hold fast to what is permanent in the old time conditions, we must accept what is inevitable in the changes that have taken place. It is fortunate indeed that the principles upon which our government was founded require no alteration to meet these changes.

### Reveals Relief Plans

Just as there is transformation in agriculture so there is in other industry; just as there is more specialization on the farm, so there is in other industry. We live today by the exchange of goods among ten thousand sorts of producers of specialties. A large number of occupations which were conducted on the farm in old days are now conducted in the factory. That is one reason why we have a decreasing proportion of our people on the farms. By this revolution the American farmer has become enmeshed in powerful and, yet delicate, economic forces which are working to his disadvantage.

In my acceptance speech ten days ago I made an extended statement upon the legislative proposals for relief to the agricultural industry which the Republican party has put forward in its platform. You would not wish me to take your time to review that statement. I should, however, like to emphasize that the spirit of those legislative proposals is to work out a more economical and stable marketing system. A federal farm board is to be set up with the necessary powers and resources to assist the industry to meet not alone the varied problems of today, but those which may arise in the future. My fundamental concept of agriculture is one controlled by its own members, organized to fight its own economic battles and to determine its own destinies. Nor do I speak of organization in the narrow sense of traditional farm co-operatives or pools, but in the much wider sense of a sound marketing organization. It is not by these proposals intended to put the government into the control of the business of agriculture, nor to subsidize the prices of farm products and pay the losses thereon either by the federal treasury or by a tax or fee on the farmer. We propose with governmental assistance and an initial

advance of capital to enable the agricultural industry to reach a stature of modern business operations by which the farmer will attain his independence and maintain his individuality.

And upon this whole question I should like to read from my acceptance speech that:

"The working out of agricultural relief constitutes the most important obligation of the next administration. The object of our policies is to establish for our farmers an income equal to those of other occupations; for the farmer's wife the same comforts in her home as women in other groups; for the farm boys and girls the same opportunities in life as other boys and girls. So far as my own abilities may be of service, I dedicate them to help secure prosperity and contentment in that industry where I and my forefathers were born and nearly all my family still obtain their livelihood."

In formulating recommendations for legislation to carry out the proposals of the party, I trust that we may have the full assistance of the leaders of agricultural thought. I am not insensible to the value of the study which sincere farm leaders have given to this question of farm legislation. They have all contributed to the realization that the problem must be solved. They will be invited into conference. Outstanding farmers such as Governor Lowden will be asked to join in the search for common ground upon which we can act.

### Calls Waterways Vital

I had thought today to particularly point out the importance of the development of our interior waterways as bearing on the prosperity not only of agriculture but of the whole of our Midwest business and commerce. It is a most important supplement to agricultural relief. The necessarily large advances in railway rates from the war militate against the economic setting of this whole interior section. This, together with the completion of the Panama Canal and the fact that ocean rates have increased but little since before the war, further disturbs the whole economic relationship of the Midwest. It is as if a row of toll gates had been placed around this whole section of our country. It seriously affects the farmer. I think we can accept it as an economic fact that the farmer on most occasions pays the freight on his products. It is a deduction from the ultimate price; you yourself can attest this. In a general way, the centerpoint of markets is overseas or the Atlantic seaboard, where prices are determined by the meeting of streams of world products.

For every hundred miles you are removed from these market centers the price of farm products is lower by the amount of freight rates. Some calculations which I made a few years ago showed that the increases in railway rates had in effect moved the Midwest 200 to 400 miles further from seaboard. Moreover, some of the competitive agricultural regions such as the Argentine and Australia are close to seaboard and with sea rates about the same as before the war, they are able to compete with the American farmer in foreign markets to a greater advantage than before the war. This increase in transportation rates also affects the prices of many things which the farmer must buy, for much raw material which comes into the Midwest pays the increased freight rate and this in turn is taken up by the consumer. We cannot return to pre-war railway rates without ruin to the railways. Therefore, I have long asserted that the real hope of reducing charges upon our bulk goods was through the modernization of our great interior waterways. By modernization, I mean increasing depths to a point where we can handle ten thousand tons in a line of barges pulled by a tug. This administration has authorized the systematic undertaking of this modernization. Within a few years we will have completed the deepening of the Ohio up to Pittsburgh, the Mississippi up to Kansas City, Omaha, and beyond, the Mississippi to St. Paul and Minneapolis, the Illinois to Chicago. We already have experience with results, for with only the main river from St. Louis to New Orleans as yet working properly, the rates for transportation of bulk agricultural products through that section is near pre-war railway rates. We will not have the advantage of full results until the entire Mississippi and its tributaries are in one connected transportation system.

### Assures Lake-Gulf Route

We have another great opportunity of relief in the building of a shipway from the great lakes to the sea. Our engineers have recommended the St. Lawrence route as the preferable outlet. The administration has undertaken negotiations with Canada upon the subject. If these negotiations fail we must consider alternative routes. In any event the completion of this great system of barge lines on the rivers and connecting the lakes with the gulf, of opening a shipway from the lakes to the sea, will make an effective transportation system 12,000 miles in length penetrating twenty midwest states. It will connect these states with seaboard at the gulf on one hand and with the North Atlantic on the other. And this means more than the mere saving upon the actual goods shipped over these routes. If part of our crops can move to market at a seven to ten cent saving per bushel, the buyers' competitive bidding for this portion of the crop will force upward the price of the whole crop.

And this development concerns not alone agriculture, but every industry and business in the midwest. The manufacturer and merchant in this section is suffering from a curtailment

## TOWN PROGRESS TALKS

Trading out of town will jeopardize the prosperity of our town, and we are skating on thin ice when we do it. Just one person trading away from home makes little difference, but when many take their dollars elsewhere to spend, we are bound to miss the money, which is a serious matter. Money is the lifeblood of a community. A town with little money circulating is anemic and lifeless. What we like is a lively, peppy town, and we can keep ours that way by patronizing our home business men, who in turn patronize each other, and keep the dollars traveling in an endless circle. Let's all trade at home, where our dollars have more cents.

of his distribution field; his business province has shrunk. This development should tend to increase manufacturing industry in the midwest and thereby create a larger diversity of employment and a greater local market for agricultural products. Nor does this development mean the crippling of our railways. The annual increase in railway traffic will give to them a far more and complete offset to these diversions. Moreover, everything that increases the prosperity of the country also helps the railways. The policy of rapid consumption of this great project will be continued if the Republican administration be continued. We should at the present rate of progress have completed the Mississippi system within the next four years. It is a vital part of the rehabilitation of the middle west agriculture and business.

### Still Need to Pioneer

The modernizations of our waterways recall again the earlier life of Iowa. At one time its transportation was in large degree over these same rivers and many of our pioneers reached this state by the old Packet boats and their own rafts. Nor are the days of the pioneer over. We have to pioneer through economic problems, through scientific development and invention on to frontiers just as forbidding, just as romantic, and just as pregnant of added happiness as our fathers ever knew. The test of our generation will be whether we can overcome these frontiers, whether we can hold mastery over the system we have created, whether we can maintain the advantage we have inherited, whether we can hold ourselves a nation dedicated to equal opportunity for all.

There are those in this audience who saw Iowa an open prairie. I recall members of my own family who in my childhood were still breaking the soil in the western part of the state and were then still living in the first sod houses of the pioneer farmer. Our fathers and grandfathers who poured over the midwest were self-reliant, rugged, God-fearing people of indomitable courage. They combined to build the roads, bridges, and towns; they co-operated together to erect their schools, their churches, and to raise their barns and harvest their fields. They asked only for freedom of opportunity and an equal chance. In these conceptions lies the real basis of American democracy. They and their fathers give a genius to American institutions that distinguished our people from any other in the world. Their demand for an equal chance is the basis of American progress. To those who have by necessity worked in other lands comes this most vivid meaning of America and a deep gratitude for what our fathers have builded. Here there are no limits to hope; no limits upon accomplishment; our obligation today is to maintain that equal opportunity for agriculture as well as for every other calling.

### Pledges Service to Homes

When we traverse the memories of those who have builded this state and this nation we recall these acts which are rooted in the soil of service. When we rehearse our own memories we find that none give us such comfort and satisfaction as the record of service we have been able to render. I do not believe our people have lost those finer qualities of rugged character, self-reliance, or initiative, nor have they lost the great quality which they imbedded in American character, the quality of neighborly co-operation and mutual service. It is in this quality that our hopes must lie in the solution of our great problems.

And I must say again that the solution of these problems has but one purpose—that is the comfort and welfare of the American family and the American home. The family is the unit of American life and the home is the sanctuary of moral inspiration and of American spirit. The true conception of America is not a country of 110,000,000 people but a nation of 23,000,000 families living in 23,000,000 homes. I pledge my services to these homes.

## PRINTING

Good Printing  
Is the Dress  
of Business.  
That Is the  
Kind We Do.

## PERSONAL MENTION

Mr. and Mrs. T. G. Rhodes, Jr., and Mr. and Mrs. T. G. Rhodes, Sr., Chicago, plan to leave Sunday morning on a motor trip touring the east. They have not decided on the length of their vacation trip but intend to travel around as long as they desire.

Wilson McGee, former business man of Antioch, visited friends here Sunday and Monday.

David S. Speaker, an electrician of Kenosha, spent Tuesday in Antioch getting bids on work.

Dr. Jahnke moved Monday morning into the house vacated by L. R. Watson and family.

Romano Winship danced a solo fiddle dance at the Twin Lakes Ball-room last Monday evening.

Mr. and Mrs. Fred Hackett, son and daughter, arrived here Friday. They have not as yet found a residence but have been living with J. C. Nixon and family. Mr. Hackett is the new manual training teacher at the Antioch high school. He has held the position of production manager at Kewanee Furnishing Co., Kewanee, Wisconsin.

Mr. and Mrs. Wendell Holst and Mr. and Mrs. Lynch of Chicago have been spending the last week with the Winships.

Mr. and Mrs. Charles Kletzman, Mr. and Mrs. Paige Perkinson, Orono, Ill., who have been touring through Wisconsin returning by Madison, the Delta, and Lake Geneva, arrived at W. J. VanDuzer's to spend the week end. Sunday 29 relatives and friends gathered to spend the day. They returned Monday morning to their home. Junior Sheen accompanied them for a short visit.

Guests of Mrs. D. A. Williams Sunday were Mr. and Mrs. William Dupre, Delavan, Wisconsin.

Mr. and Mrs. Austin Meekin and son, Paul du Lac, Wisconsin, spent three days this week with Mr. and Mrs. Medora Webb and family.

Mrs. Lloyd Wetzel was surprised last Friday evening when her husband and a number of friends drove out to Wetzel's lot in Woodcrest subdivision, Channel Lake, for a corn roast and discovered a fine live room cottage all ready for occupants. Mr. Wetzel has kept the building of the cottage a secret all summer from Mrs. Wetzel and the boys.

Mrs. W. W. Warriner, Mrs. Ben Burke and Mrs. O. L. Hoye were luncheon guests of Mrs. W. Dobyns at Nippersink Country Club last Wednesday.

Misses Katherine, Marie, Eugenie and Barbara Snowbrook of Kenosha have returned home after a week's visit with their cousins, Mr. and Mrs. O. L. Hoye.

Hear the new Radiola 60 at Wm. Keulman's Jewelry Store.

Misses Adele and Betty and brother, Dan Dupre, returned home Sunday to Delavan, Wisconsin, after spending the summer months with their grandmother, Mrs. D. A. Williams.

Mrs. Clara Westlake and daughters, Martha and Fannie, arrived in Antioch Thursday evening after spending a three month's vacation touring England and visiting relatives and friends of Mrs. Westlake.

Hear the new Radiola 60 at Wm. Keulman's Jewelry Store.

Leonard Kahl returned home Friday evening from the Wesley Memorial hospital, Chicago. He is much improved and may be able to begin high school with his schoolmates on September 4.

Mr. and Mrs. John E. Moore and son, Robert, spent Sunday in Milwaukee.

Suitcases and luggage carriers, Chase Webb.

Mr. and Mrs. W. Boylan and son, Donald, of Chicago, spent the week end with Mr. Boylan's sister, H. H. Grimm.

Lola King is registered in the Kenosha High School and will soon leave for Kenosha where she will live this winter. She will enter school as a senior.

Everything in work and dress shoes, Chase Webb.

June Hall spent a few days this week with Mr. and Mrs. T. Fawcett. Bertha Schorn visited with relatives in Waukegan, last Sunday.

Mr. and Mrs. Zappa Psychom and son, George, of Libertyville spent Tuesday with Mr. and Mrs. Dan Harris.

Mrs. Allie Moore of Rock Island, Illinois, spent Tuesday at the home of Mr. and Mrs. John E. Moore. Mrs. Moore was formerly a resident of Grays Lake.

Use Fly Chaser—make more milk, Chase Webb.

A card party was given by the Milburn chapter of the Order of Eastern Star in the Antioch Palace Tuesday afternoon.

Mrs. Jerome Smith returned to Pontiac, with her son Saturday evening.

William Horton, Bloomer, is calling on relatives and old friends here.

Mr. and Mrs. Eugene O. Hawkins, Mr. and Mrs. W. H. Osmond left Saturday morning for a trip through Colorado. They will be gone for about three weeks. Mr. Hawkins will spend a few days at his ranch in Flagler, Colorado.

Mrs. Frank Mastine is entertaining her sister, Mrs. Frank Safranek of Chicago and her niece, Mrs. Richard Robinson and daughter, Dorothea, of Cicero this week.

Hear the new Radiola 60 at Wm. Keulman's Jewelry Store.

Mrs. Wetzel has been entertaining her sisters, Mrs. Thelma Clark and son, Richard, from Aurora, and Mrs. Ada O'Malley and son, Gerald, from Freeport, for a few days this week.

Mr. and Mrs. Homer Gaston, Mr. and Mrs. Elms Peters, and Mr. and Mrs. S. H. Nelson and family drove to Canton, Illinois, over the week end where they visited with the parents of Mr. Nelson. Mr. Nelson returned with Mr. and Mrs. Gaston and Mrs. Nelson and boys drove on to Gorham and intend to make a visit with Mrs. Nelson's parents.

Misses Florence and Ruth Elfrin and their aunt of Chicago were in Antioch Tuesday and visited with Catherine Kahl, a school friend of Florence at Northwestern University.

I will sell my present millinery stock at less than cost for the next two weeks in order to make room for new fall hats. Miss Addie Schaefer, Antioch Hotel.

Dan Harris is much improved but still confined to his bed. An infected tooth has caused the trouble, the infection settling in his legs.

Ray Webb spent last Friday in Chicago.

Mrs. G. W. Jensen visited with relatives in Chicago a few days the beginning of the week.

James Babor returned to his home Sunday after spending three months in Europe visiting relatives and many places of interest.

Mrs. James Babor and daughter, Mrs. George Malek, and children, motored to Chicago Sunday to attend a surprise party given in honor of James Babor.

George Malek, of Berwyn, Ill., returned to his home after spending two weeks with his family in the Babor home.

Mr. and Mrs. Charles Calta and Mr. and Mrs. Frank Calta and Miss Mahr spent the last week with Mrs. James Babor.

Mr. and Mrs. John Thompson, Kenosha, Wisconsin, visited with Mr. and Mrs. Edwin Reutner Sunday afternoon and evening.

Mrs. Rose Rosling and Miss Hilma Rosling were Milwaukee shoppers Wednesday.

Ten girls helped Leona Hennings celebrate her birthday last Tuesday evening. They made it a theatre party and had an enjoyable time afterwards at Leona's home.

Ruth and Helen Cribb and Daisy Richards were entertained at dinner last Friday at the home of Edna Drom in honor of Edna's birthday.

## Mother Drowns Trying to Save Three Children

St. Johns, N. F.—A tragedy of the Far North in which a courageous Eskimo mother lost her life in an attempt to save three of her children from drowning was described here by Captain Burgess of the steamer Ingova, just back from a cruise along the Labrador coast.

The three children, a boy and two girls, were fishing at the edge of the ice near Rigolet when a large floe broke away and carried them out to sea. The mother saw the children just as the floe overturned and threw the children into the water, the children clinging to the edge of the ice.

The mother launched a leaky boat, the only one available, and with a tug as a ball set out to the rescue. She reached the children and drew them into the boat. The boat fell to pieces, as she worked desperately throwing out the water and attempting to paddle at the same time. Before she could paddle the rapidly filling craft back to shore the boat sank, and all were drowned.

The mother launched a leaky boat, the only one available, and with a tug as a ball set out to the rescue. She reached the children and drew them into the boat. The boat fell to pieces, as she worked desperately throwing out the water and attempting to paddle at the same time. Before she could paddle the rapidly filling craft back to shore the boat sank, and all were drowned.

## ANTIOCH IS LOSER TO BARRINGTON, 7-6

### Local Players Are Defeated After Ten Innings Of Baseball.

In a contest which started out to be a one-sided game, but which later proved to be close, Antioch lost to Barrington 7 to 6 in a ten inning game Sunday on the Antioch field. Antioch was leading in the seventh inning, but Barrington managed to tie the score in the eighth, and finally win.

Barrington (7)	AB R H E
Sheehan, ss	6 1 3 2
Waterman, lf	4 1 1 0
Been, cf	5 0 2 0
Rudinski, 2b	5 0 0 1
Wells, 1b	4 1 1 1
Stanford, 3b	5 2 2 1
Romuth, rf	3 2 1 0
Krause, p	5 0 1 0

Totals	42 7 12 5
Antioch (6)	AB R H E
Nixon, 2b	3 1 1 0
Simpson, 1b	4 0 1 1
Lasco, cf	5 0 0 0
Sullivan, lf	4 1 2 0

Barrington	050 000 0101
Antioch	001 013 1000
Three base hits:	Been, Sullivan.
Struck out:	by Krause 16, by Drom 6.
Base on balls:	off Krause 3, off Drom 2; off Fredrickson 1.

### Invention Long Delayed

There is nothing more prosaic than a rope, and yet in the march of labor-saving invention a rope-making machine was long one of the last on the list. So long, indeed, did rope-making remain one of the manual arts that the name of the place where the work was done has become ingrained in popular speech, and the rope factory, though in no way meriting the appellation, is still known in some quarters as the "rope-walk."

### Only Known to Be Old

There are no authentic data regarding the origin of the game of croquet, which was a favorite of kings some 200 years ago. Some writers say that it was evolved from the game paille-malle, which was played in Langue-doc as early as the Thirteenth century.

### Prolific Fishing Grounds

The three greatest commercial fishing waters are located near the coasts of northwestern Europe, northeastern America and northeastern Asia. In these places, where the ocean is comparatively shallow, enormous schools of valuable food fish congregate in order to obtain the food that they find near the bottom.

## Churches

Christian Science Services  
Sunday School 9:45 a. m.  
Service of Worship, Sunday 11 a. m.  
Wednesday service 8 p. m.  
Reading room open Wednesday 7:00 to 8:00 p. m.

Methodist Church Notes  
Sunday, the last of the vacation season, will mark the end of a most delightful fellowship between the church and the summer guests until another season is upon us. We wish to take this opportunity to express our appreciation for your splendid cooperation. Our people have thoroughly enjoyed your coming among us to share the worship and inspiration for greater service, in the Kingdom of God.

Mrs. Rex Bonser will sing during the morning worship Sunday and Mrs. W. Ziegler will preside at the organ. The sermon theme will have to do with "Salvation in this age." It will be timely, helpful, an answer to the old question asked by each generation.

Sunday evening, September 9, is the date of the quarterly conference. Members and friends of the church should plan to attend this meeting.

St. Ignatius' Church Notes  
Episcopal  
Calendar—Thirteenth Sunday after Trinity.

7:00 o'clock—Holy Communion.  
10:00 o'clock—Church School.  
10:30 o'clock—Holy Eucharist.  
Next Sunday begins the month of September and the "active" season of the Christian religion starts, as the summer rush is over. The Sunday after Labor Day will be registration day for the church school. All young persons are asked to register at that time so that fall classes in religious education may be formed. After next Sunday the services will be: Holy Communion, 7:30 o'clock; church school, 10 o'clock; matins or eucharist, 11 o'clock, with special vesper services as announced in Advent and Lent, 5 o'clock.

William Kelly, church collector, would be glad to receive some of the missing numbers.

### Cursing With an Object

Certain priests, chosen for their vicious habits, were appointed to utter public curses by the ancients, and this custom is still practiced to the Arabs. Public curses among the Arabs copy the ancient ritual by uttering their maledictions with one shoe on and a bare foot resting upon a block of stone. Their duty is to curse the crops in order to assure a good harvest.

### Gave Name to Bullet

A bullet ball is a central rifle bullet with a cavity in its base placed with a metal cup, which, by the explosion of the charge, is driven farther in, expanding the sides to fit closely the rifling. Such balls were much used in the middle of the Nineteenth century and are named after the inventor Capt. B. B. Minie of France.

## CHICAGO MAN VICTIM OF HEART TROUBLE AT FOX LAKE HOME

Heart trouble caused the death of Albert Klenappach, 66, who died Wednesday at his summer home along Fox Lake. The body was taken to his home in Chicago Thursday morning by Lee G. Strong, undertaker.

The Klenappach family has owned land in the Fox Lake district for 65 years. Mr. Klenappach has been coming to the summer home at various times during the season for his health. He had been there only seven days on his last visit.

### Odd English Auction

A curious auction is held in the village of Upwey, Weymouth, England, every spring when the parish meadow is rented for the year, not to the highest bidder, but to the one who bids last when the light from a bell of candle expires.—New York Times.

### Such Is Human Nature

You can find ten men fighting for their politics to whom you can find one who will go out in the rain for his religion. Capper's Weekly.

## Annual Legion Plans Are Completed Now

Plans are now completed for the fourth annual Summer Festival given by the American Legion of Waukegan, which will open with a parade Friday night at 6 o'clock.

The Festival parade is an annual community affair in which merchants, industries, and organizations are invited to take part. It consists of floats, decorated cars, bands, and marching fraternities organizations.

From the opening of the festival on Friday evening until midnight the Monday following, Labor Day, activities at the beach in Waukegan will continue.

### Ship's Bells

The striking of bells on board ship dates from the time of the half-hour noon class. The bell was struck each time the glass was turned.

## KNOT HOLE NEWS

Vol. 1 August 30, 1928 No. 25

Published in the interest of the people of Antioch and vicinity by H. R. Adams and Co.  
H. R. Adams, Editor  
Rex Bonser, Mgr.

Labor Day is here once more. The American laboring man.

We take off our hat to you. The salt of the earth.

I understand that Jones is a criminal lawyer? Yes, but we've never been able to prove it on him.

School will start in again next Tuesday and then we will all be in the harness. We are glad that a man is only as old as he feels.

One of the most needed inventions of today is an automobile brake that gets tight with the driver.

We are again fortunate in having Supt. L. O. Bright back with us this year to govern the Antioch High School. Greetings to him and his corps of able assistants.

Mr. Vincent Dupre, local contractor and builder, has begun the erection of a fine new home in the "Antioch Hill" subdivision, for Mr. Harry Schumacher.

"It looks like rain." "Yes it does, but it has a faint flavor of milk."

Because it is so easily cleaned, DICO is the ideal finish for the kitchen, where color is becoming so much the vogue. Call at our office for a free color card.

How to keep from growing old—Always drive fast out of alleys.

### Frances Davis Marries Chicago Youth Tuesday At Waukegan

Frances Davis and Otto Toucek of Chicago were married at the Waukegan Court House Tuesday afternoon. Mrs. Davis, Gladys and Donald Davis, mother, sister and brother of Frances were present at the ceremony.

Mr. Toucek is employed in a bank in Chicago. Mr. and Mrs. Toucek expect to live in Antioch for the present.

### MRS. BEN BURKE ENTERTAINS LADIES AT LUNCHEON

Mrs. Ben Burke entertained eight ladies at her summer home at Bluff Lake last Thursday noon at a twelve-thirty luncheon. The ladies enjoyed the afternoon playing bridge and Mrs. Barrett of Chicago won first prize and Mrs. Hester Garland, second prize.

### WINNEPEG COUPLE ARE HONORED AT CARDS

Bridge and "500" were played Saturday night when Mr. and Mrs. John Murray entertained with their niece, Mrs. James Robinson, and her husband, of Winnepeg, Wisconsin. Those present were: Mr. and Mrs. Charles Alvers, Mr. and Mrs. Nick Wendel, Mr. and Mrs. Sam Straghn, Mrs. D. A. Williams, and Miss Ruth Williams.

### TUESDAY CLUB MEETS WITH MRS. HUNT

Five hundred was played when the Tuesday club met this week with Mrs. Frank Hunt. Prizes were awarded Mrs. John Brogan, Mrs. Wm. F. Ziegler and Mrs. Frank Dibble.

### Edwards Family Holds Reunion Last Sunday

A reunion of the Edwards family, descendants of Thomas and Mary Edwards, who settled in Lake county in 1846, coming from England in 1843, was held on the Bert Edwards' farm in Antioch township last Sunday. Sixty-nine were present. A picnic dinner was enjoyed at noon after which games, stunts, and getting better acquainted featured. Members of the clan were present from Racine, Kenosha, and Wauwatosa, Wisconsin, and Antioch, Milwaukee, Waukegan, Rosecrans, Russell, Grayslake, and Chicago, Ill.

A horse shoe pitching tournament was won by Richard and Warren W. Edwards, both of Chicago.

### Prosperity and Wit

No laws of dynasties or philosophers have ever changed the popular opinion that wits are entitled to a superior share of the world's goods. Every man believes it and wishes he had more wits.

### Stars on the Flag

The stars on the American flag represent the states of the Union collectively, not individually. It is erroneous to suppose that a certain star represents a particular state.

### Beauty and Life

Life, to be pleasurable and successful, requires something besides food and comfort, roof and gasoline; that something else is beauty and love. —Farm and Fireside

### Mark of Greatness

Maturity is always a mark of greatness whether the persons possessed of it are old or young. —Woman's Home Companion

### TOWN PROGRESS TALKS

Our nation was founded on the motto, "United we stand, divided we fall," and every community in the land today exists on that principle. Together we can accomplish anything—divided, with each person suspicious and working against the other, we get nowhere. We should emulate the "Three Musketeers." "One for all, and all for one." You can't beat that kind of a partnership. Co-operation makes successful and happy communities. When each man helps his neighbor, the difficulties which attend the securing of public improvements fade away like mist before the sun. So when we are asked to put our shoulder to the wheel for the public welfare, let's respond with a royal good will.

### MOOCHERS CLUB ENJOY DINNER WEDNESDAY NIGHT

The Mochers Club of Antioch were entertained at a dinner given in their honor at the home of Mrs. Folbrich Wednesday evening.

This club is purely for social purposes only and was organized by one of the high school teachers last year and its members are present and former students.

### MOTHERS' CLUB PLANS TO MEET ON TUESDAY

All mothers are invited to attend the meeting of the Mothers' club which is to be held Tuesday afternoon at 3 o'clock in the parlors of the Methodist Episcopal church.

### MRS. NELS L. NELSON WINS CLUB HIGH SCORE

High score was won by Mrs. Nels L. Nelson at the meeting of her five hundred club last Thursday at the home of Mrs. G. Schilke. Other awards went to Mrs. James Stearns and Mrs. E. O. Hawkins. The club met this afternoon with Mrs. George Gollwitzer at the home of her mother, Mrs. P. Vlezens.

## NEW BUILDING CODE PASSED BY COUNCIL

(Continued from first page)

combustible material, a wooden fence is not to be used to form the back or side of such sheds; wooden fences not more than 10 feet high; piazzas or balconies not exceeding 10 feet in width nor extending more than three feet above the second story floor beams; bay windows when covered with combustible materials; and small outhouses not exceeding 150 square feet in area and eight feet in height.

### REPAIRING

If a building is damaged by fire or any other way to the extent of 50 per cent of the original condition, exclusive of foundations, it shall not be repaired or rebuilt, but shall be torn down or removed.

Every building or part of a building to be used as a public, private or parochial school shall be of fireproof construction. In all public buildings, and buildings with hazardous occupancies, all electric wiring must be installed in a rigid metal conduit. No open wiring shall be permitted.

### PROTECTION

The Village council has fixed the distance which the ends of floor, ceiling, or roof beams shall be separated at six inches, the separation to be by solid masonry. Openings in fire walls must conform with the standards of the National Board of Fire Underwriters. Elevator shafts, light, vent and dumb-waiter shafts must also conform to definite standards set by the council.

The code also governs the width of stairways in public buildings and the number and size of exits necessary in schools, hospitals, and theatres.

Chimneys or flues for every high pressure steam boiler must have walls not less than 12 inches thick, the inside of the walls for four inches must be of fire brick laid in fire mortar. Brick, stone and masonry chimneys are included in the above, but metal smokestacks may be used upon certain conditions. Requirements for chimneys for low temperature appliances, furnaces and smoke pipes are also given.

Gas connections to stoves or similar heating devices must be made by rigid, metal pipes. Small portable gas heating devices may be fixed with flexible metal or rubber tubing if there is no valve or other shut-off device.

No frame buildings may be erected from now on that are more than two stories or 30 feet in height, except private dwellings which may be three stories and 40 feet high.

All standards for design including floor loads, working stresses, specification for materials, jointing, framing, and all construction details must, in every respect, conform to good engineering and architectural practice.

Ventilation of theatres, assembly halls, and other public buildings is considered in the code, as fire matters concerning the repair or removal of unsafe or insanitary buildings.

### COMMISSIONER

A building commissioner will be appointed by the president of the council, with the approval of the rest of the body. Specific duties of the commissioner shall be to enforce the code, and to see that the penalties outlined are inflicted upon violators.

### Natural Enemy of the Rat

Ever since the time when cats caught mice among the grain sacks that Joseph stored up against the seven years of famine, right down to the present, cats have been helping mankind get rid of the rats and mice that infest the barns and the corn cribs of the world.

### Purpose of Evil

Evil is generally committed under the hope of some advantage the pursuit of virtue seldom obtains. —B. R. Hayden

## BARBOUR ASSAILS FLOYD THOMPSON

Looney Prosecutor Says  
Candidate Was Close  
To Conspirators.

(Continued from first page)  
Island was simply another name for that kind of organized vice that pays money tribute to some officials, "retains" others as attorneys, and gives support to votes and money in elections, all as those in police control may direct.

"One of the usual features of such alliances between crime and politics is often the marked friendship that exists between corrupt officials on the one hand and other officials whose laxity and toleration are no essential to the growth of evil conditions."

"The Rock Island cleanup inaugurated by Attorney General Brundage and a citizen's committee (which movement I actively assisted in as a special prosecutor during a period of more than four years) was featured by the return of indictments by grand juries of Rock Island County against the city of Rock Island's mayor, chief of police, city attorney, police magistrate and innumerable dive keepers, along with the city's alternating Vice Lords, Looney and Billings."

The mayor, chief of police, city attorney and others were convicted of conspiracy and still others of murder. The judgment against the deposed chief of police, and his codefendants was reversed on appeal, but meanwhile he had died, while indictments for murder, conspiracy and larceny were still pending against him.

"The close official relations that had existed between the Democratic party's present candidate for governor, while he was State's Attorney of Rock Island County, and the chief of police in question, as well as his intimate personal friendship and social relations with that chief of police and another of the convicted officials, was generally accepted as an adequate explanation for his lukewarmness to the citizens' movement at its inception and his disparagement of its leaders."

"Nevertheless, such attitude on his part, being as he then was justice of the Supreme Court of Illinois, was most disheartening to the friends of good government, and was justly and frequently criticized."

"One will look in vain for anything in his youthful and official career in his home city suggestive of fitness for state leadership or which gives the impression of sincerity to his high sounding promises of idealistic performance of gubernatorial duties in the inconceivable event of his election, while his unsound and unwarranted criticism of the splendid administration of the great office of Secretary of State during the twelve years of your incumbency is in line with the demagogic propensities which are coincident with his illudinate ambition for high office."

Senator Barbour participated in the Rock Island vice ring prosecutions as a special attorney general under the direction of Attorney General Brundage.

### Ancient Adornments

Closely related to necklaces of precious stones are the chalices and collars of gold which appear to have been used by the Hebrews for ornament as well as official distinction, much as they are, to a certain extent, today. Ancient Persians were extremely fond of gold ornaments and conspicuous among the various objects were chains.

### Pain Analyzed

Pain itself is not without its alleviating factors. It may be violent and frequent, but it is seldom both violent and long continued, and its pangs and later miseries become positive pleasures. It has the power of shedding a satisfaction over intervals of ease which few enjoyments exceed. —Walter Bailey

## To Talk Into Millions of Homes

THE voice of Herbert Hoover will be heard in millions of homes when the Republican presidential candidate desires to lay important issues of campaign before the voters of the country. As Secretary of Commerce, Mr. Hoover has made a number of radio addresses. Plain, important but convincing.

### TOWN PROGRESS TALKS

The plant that stands in the path of the small city merchant is the big city store. Buyers from small cities are often dazzled by the big establishments, whereas the big city dweller like us too buys from small neighborhood shops near her home. Instances tend to encourage in luring the shopper to the large city store, but wise shoppers find they can do quite as well by trading at home. They are also keeping their money at home, which makes for a more prosperous community. The home merchants are our friends, they help pay our taxes, support our schools and churches, and they always dig down when the hat is passed. Let's stick by them.

### Natural Ice Discarded

The city of New York is supplied artificial ice, and the Hudson valley natural ice crops have gone largely into the discard, along with the Maine ice cut, so far as the metropolis is concerned. The ice plants in the city make 30,000 tons a day.

### Plan Traffic Tunnel

for Hongkong Harbor

Hongkong, China.—The Hongkong government is studying a project to link the island with the mainland by a traffic tunnel similar to the Holland tubes, which join Manhattan Island to New Jersey.

Between Hongkong and Kowloon, its mainland suburb, lies a three-quarter-mile-wide strait, which is Hongkong harbor, crossed by an inadequate ferry service, which is usually suspended during the typhoons which frequent this coast.

Engineers estimate that the tunnel need not be deeper than some sections of the London "underground." Such an undertaking, first of its kind in the Far East, would relieve the congestion of Hongkong and promote the already rapid growth of Kowloon and other towns in British territory on the mainland.

### Awakening the Deaf

An electric clock for the deaf has been patented by a Bavarian. At the hour fixed the clock bounces a rubber ball on the head of the sleeper.

### The New Germany

Germany's present official name is "Deutsches Reich." In English it is called the "German Republic."

### Sequoia Lodge No. 827, A.F. & A.M.

Holds regular communication the first and third Tuesday evenings of each month.

Visiting Brethren always welcome  
F. B. Huber, Secretary.

A. M. Hawkins, W. M.

The Eastern Star meets second and fourth Thursdays of each month.

Mrs. Barney Trieger, W. M.  
Mrs. Adolph Pesat, Jr., Secretary

## BRISTOL FAMILY HAS SOUTH DAKOTA MAN AS GUEST RECENTLY

Five Brothers Carry On  
Work For Canistota  
Doctor.

Emil Ortmann (brother of Dr. A. S. Ortmann, Canistota, South Dakota) visited at the home of Clifford and Laura Jacobson last week. He is the one who carries passengers to and from the depot to see the doctor. There are five brothers, all of which assist in carrying on the work. Emil Ortmann is on his way to Niagara Falls and points of interest in the East. He also took dinner with the Von Stechtern family in South Bristol.

Mrs. Hazar and three children, Harvard, Ill., visited Mrs. Lucy Krohn Wednesday.

Mr. and Mrs. Andrew Heenrich, Milwaukee, were guests of Mr. and Mrs. E. L. Stonebraker last week.

There will be a sacred concert given in the M. E. church on Sunday evening, consisting of vocal and instrumental selections and readings. A free will offering will be taken. The program will begin at 8 o'clock.

A merry party of children enjoyed a pleasant afternoon at the Joseph Goff home last week, when Mrs. Goff acted as hostess to the following in honor of her daughter, Evelyn's birthday anniversary: Willard Bryant, Marilyn and Lorraine Peterson, Nettie and Dorothy Smith, Grace, Mabel and Gladys Otto, Helen LaMuer, Frances and Russell Long.

The L. A. S. supper served on the Parsonage lawn netted about \$40.00.

Mr. and Mrs. Frank Gethen were invited to the Robert Burden home in Rockford Saturday for a birthday surprise for Mrs. Burden's mother, Mrs. Elmer Gethen. Other relatives from Kenosha and Milwaukee were present.

Mrs. Vera Smith entertained Mrs. Bradley from Racine part of last week.

Mrs. Samuel Knapp entertained at a dinner recently in honor of her

## HOOVERISM

I believe there is no surer method of applying the freedom of self government and the sense of responsibility of our citizens than unnecessary extension of Federal control over economic services which so vitally touch the life of every family, every industry and every community.

Ours is not a nation of land, factories, railroads, dynamo, trade or ships. It is a nation of men, women and children.

The best way to economize is to utilize your time well.

No one can contemplate the past and the future of our country without an earnest prayer that we shall maintain at all times the refreshing force of a strong farm population.

Our ideal is not only a child free from disease. It is also a child made free to develop to the utmost his capacity for physical, social and mental health.

I have no fear for the ultimate cause of religion. That springs from depths too great and too certain ever to be wholly defeated.

## LAKE VILLA PARTY ADDS \$40 TO CLUB FUNDS FOR SEASON

Seventeen Tables of Bridge  
And Five Hundred Play  
On Lawn.

The Woman's club card party held on the Fred Hamlin lawn a week ago netted the club \$40 to begin the work of the year, and a splendid time was enjoyed. Seventeen tables were spread on the lawn, and many carried home nice prizes. The Royal Neighbors of Cedar Lake Camp are having a card party at the same place Thursday. Five hundred and bridge are played.

Mrs. Albert Kapple has been confined to her bed by illness the past two weeks, and Miss Kathryn Summers of Waukegan has been helping the family.

Mr. and Mrs. Helkerson and two children came Sunday from Rockford to visit Mrs. Helkerson's sister, Mrs. Carl Seeger at Lindenhurst Farm. Miss Eva Helkerson had spent the week with the Seeger family and returned home with her parents.

Dan Sheehan and Wm. Walker drove to Springfield last week and attended the State Fair held there. It was a very enjoyable trip.

Mr. Reynolds, deputy for the M. W. A. was in town on business last week and will return later to work for the local camp.

G. Swanson is adding living rooms to his garage, to be occupied by his family, so as to be more convenient to his work.

Mrs. Finch and children accompanied by her sister and daughter, are visiting their mother in the East for a few weeks.

Mr. and Mrs. Tom Hornette of Antioch were visitors at L. H. Tweed's Saturday.

Alvin Sherwood, two-year old son of Mrs. Beatrice Sherwood, was taken very ill with appendicitis, and rushed to the Victory Memorial hospital last Friday for an immediate operation. He is at present doing nicely. His grandparents, Mr. and Mrs. Wm. Wilmington at Round Lake have cared for him most of the time since his birth.

Mrs. Churchill of Rockford is at the Madison home caring for the family during Mrs. Madison's absence at the hospital. Mrs. Churchill is Mr. Madison's sister.

Mr. and Mrs. Oscar Douglas and children were down from Waukegan Monday to see the home folks.

The Lake Villa school will not open before September 10th as the alterations are not completed, though the work is being rushed as rapidly as possible.

The Ladies Aid society will meet with Mrs. J. A. Pederson at her home in the grove Wednesday afternoon, September 5. You are cordially invited to attend.

Mrs. Carl Miller, with Glenn and Junior are spending the week with relatives at Racine.

Mrs. B. J. Hooper was a Chicago passenger Friday.

Mr. and Mrs. Troy Ballenger returned Thursday night from their auto trip to Washington, D. C., and report a pleasant trip.

## INSTITUTE ADVISES CARE OF PASTURES

WHEN the farmer turns his stock to pasture just as soon as the grass shoots up and lets them forage as best they may until winter, he seriously reduces his profits by following this crude practice of our early European ancestors, according to the Blue Valley Creamery Institute. Fully one-third of the value of pastures is lost by turning out cows to grass before the grass has had a chance to get a good start. Two acres pastured only after a dense, strong, luxuriant growth has been secured will generally produce more than will three acres pastured early.

Early grazing stunts the growth of grass for the entire season, because it manufactures food material in its leaves by the aid of sunlight, and when the pasture is kept eaten down close it has little chance to carry on its process. Keep stock off pasture if at all possible and let the grass grow. It will not run away, and it will grow more luxuriant and stronger, last longer and resist summer drought better, declares the institute experts. Fresh green grass is deceptive. It is very stimulating in that it "pops up" cows. It makes a great "spring tonic," but it cannot do the work of grain and good high-protein hay. It pays to feed at least one pound of grain for each five pounds of milk even with the best pasture, in order to keep up a maximum flow of milk once production starts. It is impossible to get cows back at as high a level of production in that lactation period.

## MILLBURN RESIDENTS VISIT IN VARIOUS PARTS OF COUNTY

Guests Come to Homes in  
Community During  
The Week.

Donald Rowling, Grayslake, spent Tuesday with his cousins, Roy and Harold Bonner.

Mr. and Mrs. A. K. Hain are visiting their niece, Mrs. Frank Crenin, and family in Rollins.

The Edwards and D. B. Webb families attended the Edwards reunion at Bert Edwards' on Sunday.

Mr. and Mrs. Ira Barchant and son, and Mr. and Mrs. Johanna, Sr., Chicago, spent the week end with the Arthur Johanna family.

Mrs. Robert Bonner and sons and Mrs. Gordon Bonner and children spent Friday with the Corrin and Pedley families at Long Lake.

Mildred and Milton Bauman had their tonsils removed at Lake county hospital Monday of last week.

Miss Margaret Gilbert, Waukegan, spent the last week with the Bonner and McCredie families.

Electric lights are being installed in the school, which is also being re-decorated.

Mr. and Mrs. Carl Hughes and family spent Sunday with relatives in Libertyville.

Roy and Harold Bonner had their tonsils removed at Victory Memorial hospital Tuesday.

The Rev. Ralph Harris and son, Oak Park, attended church in Millburn Sunday and called on old friends.

The Lawson sisters, Waukegan, spent the last week at the home of their uncle, Carl Anderson.

## CHRISTIAN SCIENCE CHURCHES

"CHRIST JESUS" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, Sunday, August 26.

The Golden Text was from John 1:14: "The Word was made flesh, and dwelt among us, (and we beheld his glory, the glory as of the only begotten of the Father,) full of grace and truth."

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "But thou, Bethlehem Ephratah, though thou be little among the thousands of Judah, yet out of thee shall he come forth unto me that is to be ruler in Israel; whose goings forth have been from of old, from everlasting" (Micah 5:2).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The advent of Jesus of Nazareth marked the first century of the Christian era, but the Christ is with out beginning of years or end of days" (p. 333).

## World's Tower of Babel

A total of 2,976 languages spoken throughout the world is given by an expert from carefully compiled statistics from the various countries. This number includes the many barbaric means of expression used in obscure corners of the earth. Forty-eight of the 500 distinctive languages existing today are current in Europe, 153 in Asia, 424 in North and South America, and 117 in Oceania.

## Diamonds in America

Although Arkansas is the only place in which real diamonds are found in the rough in America, the United States is credited with having 10,000,000 carats of cut diamonds in its citizens' jewelry boxes.

## TREVOR ENTERTAINS MANY THIS WEEK

Schools Will Open as Holiday  
Recess Closes On  
September 4.

School will commence Tuesday, September 4, with Mrs. Sherman as teacher of the higher grades and Miss Florence Ridge of Whitewater, as teacher of the lower grades.

The Sewing Club met at the home of their instructor, Mrs. Lucy Sherman, Tuesday afternoon.

Mrs. Bushing of Chicago, who is spending the summer at her cottage at Channahon Lake, spent a few days of the past week with her son, Arthur Bushing and wife.

Mrs. Kouch and daughter, Ruth, with a friend are spending a couple of weeks at the Mrs. Kate VanDusen cottage.

Mrs. Ira Brown, Mrs. Arthur Bushing and Mrs. Bushing attended a meeting of the Priscillas at the home of Mrs. Roger Hinton at Brass Hall on Thursday.

Mrs. Lamb of Bristol called on friends here Thursday.

Miss Sarah Patrick visited her brother, Hiram and wife, at Wilmet Saturday.

Mrs. Lucy Sherman, Mrs. Del Harrison and Mrs. Spencer were Twin Lakes callers Saturday.

John Mitz, Sr., was called to Chicago Friday by the serious illness of his daughter, Mrs. Joseph Leizer, who passed away that evening.

Miss Hazel Hawkins of Lake Marie spent the past week with her cousin, Miss Marguerite Evans.

Tom Evans, who has been visiting his brother, John, at Salem, sisters at Bristol, Pleasant Prairie and Delavan, returned to his brother, William Evans on Tuesday.

Mr. Holman and daughter, of Racine, and Mr. and Mrs. Peterson and

son, of Chicago, visited Mr. and Mrs. Klaus Marks Thursday.

Mr. and Mrs. Gene Runyard of Channahon Lake visited the home folks Saturday.

Mr. and Mrs. August Baethke and a brother of the former from Forest Park spent Friday, Saturday and Sunday at the Joseph Smith and Fred Forster homes at Trevor and the Samuel Mathews some at Silver Lake.

Mrs. Ambrose Runyard and Mrs. William Evans were guests of Mrs. John Holzshub on Tuesday.

Mr. and Mrs. George Rohnow and little daughter visited the home folks Sunday.

Mr. and Mrs. Frank Vincent of Waukegan visited at the Ambrose Runyard home Friday.

Mr. and Mrs. Wm. Evans, Tom Evans, Miss Marguerite Evans and Miss Hazel Hawkins accompanied Mrs. Fred Hawkins to Mundelein and the model farm Thursday. At the model farm everything is run by electricity, even the flies are swatted by electricity.

John Drury of Antioch and Mrs. Johnson and daughter, Pearl, of Chicago, visited the former's daughter, Mrs. Dan Longman and family, on Thursday.

Mrs. Richard Sawyer accompanied Mrs. Julius Lingen to Lake Villa on Wednesday to meet her brother, Mr. Martin Dimmel.

Mr. and Mrs. H. Hoek and Mrs. W. R. Williams of Antioch called on Mrs. Daniel Longman Thursday evening.

Henry Mencke of Chicago spent from Saturday till Thursday with his niece, Mrs. Fred Forster.

Mr. and Mrs. August Baethke of Forest Park, Wm. Baethke of La Grange and Mr. and Mrs. Joseph Smith spent Friday evening with Mr. and Mrs. Fainstlaw and daughter at their cottage in the Whitmore subdivision at Camp Lake.

A carload of Canadian cattle were unloaded at the stock yards Wednesday morning for feeding.

## STUDEBAKER

30,000 MILES  
in  
26,326 MINUTES  
(total elapsed time)

At Atlantic City Speedway, between July 21 and August 9, four regular factory production Studebaker President Eightsgain proved Studebaker's supremacy in the automotive world.

Under strict supervision of the American Automobile Association, two President Eight roadsters traveled 30,000 miles in less than 27,000 consecutive minutes—19 days and 18 nights of driving at better than 68 miles per hour! Two President sedans averaged 63.99 and 64.15 miles per hour for the same distance! All four cars were strictly stock—chosen at random from Studebaker's assembly line by A. A. A. officials.

Even before this great achievement, Studebaker held more official speed and stamina records than all other makes of cars combined—The Commander with 25,000 miles in less than 23,000 minutes; The Dictator with 5,000 miles in less than 4800 minutes; and The Erskine Six, at \$860 f. o. b. factory, 1000 miles in 984 minutes!

Whatever Studebaker-built car you buy, you are assured superlative performance—supreme One-Profiteer value. See and drive a Studebaker today!

Antioch, Illinois

## TOWN PROGRESS TALKS

Towns, like individuals, are in constant competition with each other. A town, to hold its own with other towns these days, must keep making improvements. And the town that sticks in the same old rut and does not progress will lose trade, new businesses and home-seekers to the neighboring towns. Furthermore, the young folks will leave the unprogressive community, and when they go, the town is dead in more ways than one. What sufficed a town 25 years ago will not do today, for paved streets, public libraries, fine schools, snappy stores, community buildings, golf courses, public playgrounds and social clubs, are now necessities. So when public improvements are proposed, do not ask, "Can we afford them?" but rather, "Can we afford NOT to have them?"

## WILMOT'S BASEBALL CLUB IS PLANNING GAMES FOR FAIR

Will Also Have Charge Of Dancing In The Gym Each Day.

The Private Baseball Club of Wilmot has scheduled three games during the week. The first game was played on Monday at the Wilmot park by the Wilmot team and the boys will also have charge of the dancing in the gymnasium and evening at the gym. They are preparing for one of the best exhibitions ever held in the community.

Mrs. George Dean is visiting with Mr. and Mrs. Albert Smith of Oak Park.

Mrs. W. Dolan accompanied Mr. Tom and James Fleming to Oak Park Monday where they all attended the funeral of Mrs. Joe Dolan.

Mr. and Mrs. H. W. Seidman and Mr. and Mrs. A. J. Perkins of Chicago returned on Sunday from a motor trip through Canada via Niagara Falls. In New York state they were guests of Mr. and Mrs. Leo Hubbard.

Donald Tyler will return Friday from two weeks at Camp Douglas where he has been drilling with Troop C of the 195th Cavalry of which he is a member.

Mrs. Jodelle has returned from a two weeks vacation with his mother, Mrs. John Jodelle at Ann Arbor, Mich. Sunday Rev. Jodelle will have German services at ten o'clock at the Wilmot Lutheran church.

Mr. and Mrs. Edward Boudien and Lorraine, of Chicago stopped over Sunday with Mrs. H. Boudien while enroute on a motor trip to La Crosse and Appleton.

Mrs. Sadie Winchell of Kenosha spent from Friday until Sunday with Mrs. Hannah Boudien.

Honorable McGuire entertained a house party of four from Chicago over the week end.

Mrs. George Mack (old Carpenter) of Madison and Mr. and Mrs. Charles Mack of Chicago were guests of Mr. and Mrs. George Paulkner.

Mrs. Jane Motley is visiting at the home of Mr. and Mrs. John Collison at Richmond.

Mrs. J. Johnson and son are guests of Mr. and Mrs. Charles Elderbrook of Brighton this week.

Mrs. Leah Pacey and daughter, Ruth, spent a day last week with Mrs. M. Herrick of Oak Park.

Mr. and Mrs. F. Kruckman and son motored to Milwaukee Sunday for the day with Mr. and Mrs. H. Zorich.

There was a Volbrecht family reunion at the home of Mr. and Mrs. John Collison of Richmond Sunday. Forty five were in attendance, twenty six driving out from Racine. Mr. and Mrs. Wm. Volbrecht and Mrs. Jane Motley were present from Wilmot.

Sunday guests of Mr. and Mrs. A. C. Stoen included Mr. and Mrs. H. Stoen, Natalie and George Stoen of Hebron, Mr. and Mrs. Earl Thomas of Greenwood, Mr. and Mrs. E. Stoen and daughter, Alberta, of Hampshire, Mr. and Mrs. Walter Borman, Ralph and Pearl Borman, of Hampshire, Mr. and Mrs. Adam Weaver and son, Lester, spent the past week there and Mrs. Marshall Williams and daughter, Virginia, and Benjamin Williams of Aberdeen, S. D., arrived on Thursday. Mrs. Stoen was called to Galesville Sunday by the critical illness of her grandson, Clayton Anderson, who is ill with pneumonia.

Mrs. John Sutcliffe was in Oak Park several days last week visiting with her daughter, Grace.

Mr. and Mrs. Ferdinand Beck motored to Oak Park Monday and attended the funeral services for Mrs. Jos. Letzer.

Mr. and Mrs. John Sutcliffe entertained Mrs. Paul Panley, Mrs. A. Workmaster and daughter, Mr. and Mrs. L. Dornrose, all of Chicago, on Friday.

Illven Rice and daughter of Beloit and Frank Rice of Louisiana spent Friday with their mother, Mrs. Will Cole.

Howard and Marion McCormick of Milwaukee were guests Friday of Mr. and Mrs. Eli Vincent.

Mrs. Charles Kams entertained a group of children at a party for Viola Friday afternoon.

Mrs. Leah Pacey gave a dinner on Sunday for Mrs. Anna Pacey and family, Mr. and Mrs. Virgil Pacey of Milwaukee, Mr. and Mrs. Clifford Pacey and Floyd, Mr. and Mrs. Cyril Pacey and children and Mr. and Mrs. Earl Shales and daughters from Woodstock.

Fred Semrau Post No. 361 is holding its annual dance at the Radmacher hall at Twin Lakes Monday night, September third. A record breaking crowd is expected for the occasion. A new Model Ford will be given to the winner of the lucky admission ticket.

Wilmot Wins 16th Victory  
Wilmot defeated Round Lake Sunday at the Wilmot park by the score of 20-0. Herka pitched seven innings and allowed only 2 hits. He struck out 7 men and gave no passes. Shubert Frank went to the hill in the seventh and allowed one hit in three innings. Gegan led the hitting with a triple, a double and a single. Frank, Felts, Herrick and H. Elbert got two

hits apiece. McDougall made a sensational running catch in the 6th to keep Round Lake from scoring. Two fast double plays by Wilmot and one by Round Lake featured the defensive playing of the afternoon. Frank and Frank played brilliantly at third base.

Next Sunday Union Grove travels to the local park to play the deciding game of the series. Wilmot won one game and Union Grove has won two games this year. All of these games have been decided by one run. A fast, close game is assured.

## HICKORY NEWS

Mr. and Mrs. Paul Gaylord and Philip of Maywood, Ill., spent the past week with her sister, Mrs. C. E. Wells.

Mr. and Mrs. Fowler Hollenbeck were over the week end guests at Hickory.

Mrs. Anna Kelly visited with Mrs. J. Wells one day last week.

S. W. Ames and family of Chicago at Harris Tildeman's.

Mrs. A. T. Savage and Mrs. H. L.

Hollenbeck were guests at a birthday party in honor of Mrs. E. A. Mann at Hebron last Tuesday. Over thirty guests were entertained by the Ladies Aid of the Presbyterian church in her home with a delightful lunch served.

Mr. and Mrs. Harvey Whims, of New York, were visitors of Mr. and Mrs. A. T. Savage Sunday and Monday. They were enroute to Warren, Illinois by auto. The former being a cousin of Mrs. Savage.

First National Bank Building

Postpones that day of motor overhauling

Change to Shell Motor Oil—use it exclusively—and forget about motor overhauling. Your motor will still be running sweetly when newer car fashions tempt you to trade.

A motor consistently lubricated with Shell Motor Oil seems never to wear out. It keeps running and running with tireless precision until changing styles and advanced engineering development make the car obsolete—and even then the motor is so good that the owner hates to give it up.

By adopting unusually liberal specifications—by selecting only those crude oils which are naturally adapted to lubricating purposes—by avoiding destructive heat refining—Shell Motor Oil has been given just the right body. It is thin enough to reach every moving surface instantly—thick enough to meet any emergency that may arise in modern high-speed motoring.

Buy your Shell Motor Oil when you buy your Shell Gasoline. Shell service stations and dealers are conveniently located everywhere.

ANTIOCH OIL COMPANY

Change to **SHELL**

## 400 "Extra Dry" SHELL Gasoline

Shell Gasoline is EXTRA DRY... unusually free from heavy, greasy, carbon-bearing elements. It vaporizes completely, leaving no unburned residue to dilute the oil in the crankcase. It is a quality product... alive with power... more expensive to produce, but costs you no more than the ordinary kind.

## NEWS NOTES FROM NEIGHBORING TOWNS

**HURLINGTON**—Two Burlington youths, demons for road stamina, claim some kind of a new endurance record. Friday they left Burlington at 2 a. m. and traveled the 586 miles to Madison, S. D., by 4:30 p. m. the same day, a trip of nearly 600 miles in less than 15 hours. They were timed when they left Burlington and wired here from Madison, S. D., on their arrival there. The telegram received indicated it was sent at 4:35 p. m. the same day. They were Andrew Rueter, son of Alderman and Mrs. Ben Rueter, 365 Perkins boulevard, and Michael Fienker, 515 Pine street, Burlington.

**LIBERTYVILLE**—Word has been received of the selection of Raymond Hutchinson, youngest son of Mr. and Mrs. Frank Hutchinson, 691 West Park, Libertyville, from among the several hundred students at St. Mary's Mission House, Techny, Ill., who are studying for the priesthood, to go to Europe and Rome to finish his theological course. Raymond, who attended grade and high school in Libertyville, will depart for Europe on September 20.

**WOODSTOCK**—A freak bolt of lightning struck the Class Flats on South Troop street, Woodstock, about 6:30 Thursday morning and not only startled and stunned everyone in the immediate neighborhood but performed some queer antics such as lightning often does.

**ZION**—The State Game Warden last week allotted forty Chinese pheasants to Lake County for distribution, sending four to the City of Zion. These pheasants were obtained through the Isaac Walton League by Mr. Glen R. Sparrow, who had them banded with official bands furnished by the Biological Survey of Washington, D. C. Each pheasant had a small aluminum band fastened around the right leg.

**GRAYSLAKE**—On Friday morning, August 31, at 10 a. m. there will be a Memorial Eucharist, the date being the birthday of the late Mrs. Mary Godfrey, who passed on Feb. 6, 1923. After the service the beautiful memorial windows in the Sanctuary in the form of a trefoil depicting the resurrection of Christ and the adoring angels with the cross of life and the palm of victory. Rev. Dixon of Antioch will give a memorial address and dedicate the windows.

**PALATINE**—Three pianos, designed and built under the supervision of a Palatine citizen, will arrive in the village Saturday and be placed, two at the high school and one in the grammar school. The instruments are from the M. Schultz Piano Co., of which firm Mr. A. L. Collignon is head designer and superintendent. The two pianos for the high school are both grands, one being only 3 feet 8 inches—the smallest grand piano ever manufactured. The other is one of the Schulz company's finest pianos and is a five foot type. The instrument for the grade school is a magnificent upright.

**PALATINE**—The two large amusement enterprises in Cook county will be in operation soon within a mile of each other when Arlington Park opened its fall race meeting Monday, August 27 and the Cook County Fair at Palatine opened its annual six-day fair on Wednesday, August 29. The Cook County Fair has been held annually for the last twelve years with Labor Day as the closing day of the exposition.

### Car Stolen, Recovered, but Baby Sleeps On

Redding, Calif.—Sound asleep in the back of the family automobile when thieves took it from in front of the house, the infant daughter of Mr. and Mrs. Elmer Shogren was still slumbering when the car was recovered after a frantic chase of more than two hours.

### Saved by Goggles

Rochester, Pa.—W. L. Williams of Canton, Ohio, railroad fireman, finds four eyes very useful. A bullet fired mysteriously at a train struck his goggles and was deflected, cutting a furrow in his forehead.

### Germany's U-Boat Loss

It was announced on November 29, 1918, that Germany had lost about 200 U-boats in the course of the war. According to a later compilation made by Reuter's agency, the total number of German submarines lost by accident and enemy action was 205.

## Vrooman Plays Tammany Hall For Attempt to Play "Con" Game on Nation's Farmers

### Economic Expert and Official Under Wilson Says Houston Convention Platform Fools Nobody

Playing Tammany Hall for attempting to play a "con" game on the farmers of the nation, Carl S. Vrooman, assistant secretary of agriculture under President Wilson, declares that intelligent farmers throughout the country have received no comfort from the agricultural plank in the platform of the Democratic convention.

"The Tammany Hall campaign idea seems to be based on the theory that it can sell political gold brick promises to a bunch of hayseeds out West," Mr. Vrooman said. "I am confident the farmers of the nation will not fall for this latest 'con' game from 'The Sidewalks of New York.'"

He charged Tammany with being Democratic in name only and said that "It is essentially mercenary and parasitic. It double-crossed Wilson, Cox, and Davis."

"One of Tammany's first acts was of subterfuge and a double dealing. The agricultural plank in the Houston platform was a masterpiece of ambiguity, so framed as to admit of one interpretation in the East and another in the West and South."

"A few days after a conference with Peek (George N. Peek, of Moline, Ill.), Governor Smith endorsed the equalization fee principle, but the next day he put out a statement flatly repudiating the equalization fee itself."

"Intelligent farmers have got no comfort from the agricultural plank in the Houston platform. It professes platonic friendship for the principle of the equalization fee, without pledging the party or the candidate to the McNary-Haugen bill or to any other bill or plan of real benefit to the farmer."

Mr. Vrooman has been active in behalf of the "dirt farmers" in the Democratic party. He drafted and

Carl Vrooman

introduced the first farm relief bill in Congress in 1921.

Mr. Vrooman, an expert on economic subjects, and a writer of note, farms 4300 acres of land near his home in Bloomington, Ill. In addition to his service of five years as assistant secretary of agriculture, he served on the agricultural war mission to Europe.

### Humble Hoover Home Is State Shrine

This small cottage at West Branch, Iowa, where Herbert Hoover was born, has emerged from humble obscurity to become one of the historic shrines of the State. It was even smaller at the time of the birth of Republican presidential candidate. Much of the front has been added since he left to go to work on his uncle's farm after his father's death.

### Colors of Stars

The varying intensity of light and the changes of color of stars are due to the interference of the rays of light when passing through the earth's atmosphere.

## --Voice of the Past--

### Ten Years Ago

In six more days the primary will be over and the voters of Lake county will have made the choice of the men who are to serve at the helm of the County's business for the next four years. The most important office to be filled at this time is that of County Treasurer and Antioch has the man for the place. William A. Rosling, Antioch's candidate for the office is the only candidate from the western part of the county and to us folks out here he is the only fellow in the race.

Housewives are rejoicing over the new ruling in regard to the amount of substitutes that must be purchased with wheat flour, but on account of the impression having spread, to the effect that the purchase of substitutes was no longer necessary, we herewith publish an exact copy of the latest official ruling.

Last Sunday morning Chas. Richards and family were awakened by a call for help and upon investigating Mr. Richards found a severely injured man at his door asking for assistance. The man proved to be Swan Dahlgren, an employee at the East Loon Lake Ice house.

In view of the fact that the children in various parts of the village are becoming very indiscreet in the use of the sidewalks for the running of coaster wagons, improvised coasters, bicycles, etc., we have been called upon to mention the fact that there is a village ordinance which prohibits the use of these vehicles upon the walks.

An airship passed over this village about seven o'clock Wednesday evening. It was low enough so that the hum of the motor could be plainly heard and many people, attracted by the sound, watched it as it passed.

The Boy Scouts have, during the past week, made an effort to collect the \$300.00 which is Antioch's quota in the Salvation Army "dollars for doughnuts" drive. So far they have succeeded in raising only about fifty dollars.

At the meeting of the village board Tuesday evening only one bid was submitted for the drilling of the new well, a Zion City firm being the only ones who seemed to care for the job. The board saw fit to reject the bid and the whole matter stands just as it did before the start was made.

The Epworth League will give a reception in honor of the teachers of

the high and grade schools at the M. E. church, Friday evening. A good program has been prepared. Everyone cordially invited.

Every school room needs a pencil sharpener. For 200 pencil heads or tablet covers—anything representing a 5-cent purchase of school supplies supplies at our store—we will give a pencil sharpener or 1 quart of ink. Kings' Drug store.

### Twenty Years Ago

Jos. Fillweber and family moved on Monday from their rooms over the factory to the Wm. Burke house on Victoria street. Mr. Fillweber has resigned his position as outturner at the Antioch factory which he has held over since the factory started.

On Monday of this week negotiations were concluded whereby B. F. Naber has purchased the bus line formerly owned by Eldora Horton.

Mrs. W. F. Ziegler and Mrs. Wm. Bartlett left on Monday for a couple

of weeks visit with friends at Mendon, Michigan.

Mrs. Mabel Hogan visited friends in Kenosha a few days last week. Mrs. L. H. Pelter left on Tuesday forenoon for Preston, Iowa, where she will visit her parents and also meet a sister from the Panhandle, Texas.

The members of the Eastern Star of this place have received an invitation to attend a banquet and a meeting of the order at Waukegan this evening. Many are planning to attend.

The State Federation for Labor of Wisconsin has asked congress to pass a law granting \$12.50 a month pension to all laborers who have earned less than \$1,000 a year, after they have reached the age of 60.

The closing of the sun Tuesday morning means hundreds of dollars to the Waukegan and Lake county dairymen who have announced their Miss Bertha James will on Monday next enter the Chicago Musical college where she will take a course in vocal and instrumental music.

Intentions of raising the price of milk to the resident customers two cents. On and after the first of September, eight cents will be charged for a quart of milk.

## Weather and the Moon

Many people believe that it is a sign of cold weather when the moon is far to the north. There is probably no relation whatever between the weather and the apparent position of the moon. The moon's motions are uniform and its position can be computed for years and even centuries ahead. No such uniformity exists in regard to the weather.—Pittsburgh Magazine

## TOWN PROGRESS TALKS

Foremost among the institutions which develop a town is the home newspaper. It stands for progress; it is fair to all; it nurses no grudges; it protects its people from unwelcome publicity and causes needless sorrow to no one; it boosts every enterprise and supports all public improvements, sometimes at a financial loss; it promotes good fellowship at home and good feeling toward the town abroad. The editor regards his position as a solemn responsibility; he endeavors to be the leader in all movements that will keep his town abreast of competing towns; he does not fill his columns with the scum of the news to fill his till with dollars, though it be at the expense of the community. So why not a statue to the town's best friend, the home newspaper.

## ANOTHER GEM SHINES IN CROWN OF ROSS SINCE LAST WEEK

**Antioch Palace Fighter Wins Over Ray Newman.**

## RESULTS

**Double Windup**  
Barney Ross beat Ray Newman in 3 rounds.

**Semi-Windup**  
Larry Levette beat Jerry Miller in 3 rounds.

## Preliminaries

Joe Lunetto beat Bobby Jurend in 3 rounds.

Jimmy Hull beat Charley Zahle in 3 rounds.

Fritz Behrens beat Hugh Campbell in 3 rounds.

Frankie Hughes beat Jack Morrison in 3 rounds.

Harold Minkel knocked out Otto Kruger.

Another jewel is shining in the crown of Barney Ross, Antioch Palace, since last Friday night's bout when Ray Newman was beaten in three rounds in the double windup.

Two different times bar rights and lefts forced Newman to the floor for nine counts, the first time in the first session. The contest was started with Newman having fire in his eyes and fighting like a madman. In fact, it looked as though he were going to wipe up the ground with Ross. Ross, suddenly having a change of heart, decided to show Minnesota chow "how", so he let loose two rights and a left.

The other half of the double windup feature was when Harry Gerbel, the A. A. U. central states champion, gave Alfonso Amzone, leading bantamweight of Wisconsin, a bad beating. Gerbel won in the second, having things going his own way most of the time.

Larry Levette, 150 pounder in Waukegan, won a three-round victory over Jerry Miller, Kenosha boxer. The only knockout of the evening was scored by Harold Minkel, Union Grove, Wisconsin, over Otto Kruger, Chicago. There were 42 seconds of fighting before the fatal blow came. Joe Lunetto, Chicago, and Bobby Jurend, Deerfield, staged some speedy work, the former coming out ahead in the third round. Jimmy Hull, Lake Villa, easily won over Charley Zahle, Highland Park. This was a three-round contest, also. The Flying Dutchman, Fritz Behrens, Lake Forest, and Hugh Campbell, Grayslake, fought, and the former won the decision without any difficulty.

Jack Morrison, a substitute boxer, Chicago, lost the verdict in the fight with Frankie Hughes, Kenosha.

The card promised by Promoter Dick Mack for tomorrow night follows:

Fr. Mac' McMullin, Waukegan, Ill., 150 lbs., Jerry Miller, Kenosha, Wis. Joe Drinka, Waukegan, Illinois, 150 lbs., Hugh Campbell, Grayslake, Illinois.

Ray Turner, Fort Sheridan, Illinois, 170 lbs., Bob Stone, Pelee Plaine.

Harry Duffield, Garfield Park Eagles, 135 lbs., Frankie Hughes, Kenosha, Wis.

Larry Levette, Waukegan, Illinois, 150 lbs., Joe Stowe, Kenosha, Wis.

Ray Newman, St. Paul, Minn., 125 lbs., (Return) Barney Ross, Antioch Palace A. C.

Jimmy Hull, Lake Villa, Illinois, 125 lbs., Bennie Goldblatt, Chicago, Illinois.

Jimmy Chase, Tribune Golden Glove Winner, 116 lbs., Alphonse Amzone, Racine, Wis.

Referee, George "Jabber" Young. Matchmaker and Announcer, Alent. Henry "Helms" Wallenwein.

Entertainment by Bill Donnelly's Kings of Harmony before fights and during intermission.

Subscribe for the News

## THIS FARM PAYS

A VIEW of the 1280 acre farm of Herbert Hoover. Operations on Mr. Hoover's farm are conducted on the same high engineering plane as all his other enterprises. The entire acreage is irrigated and highly cultivated for big crops of quality productions. The land was worthless nine years ago when he bought it and was wrested from nature. Every variety of product such as potatoes, cotton, peaches, grapes, onions, figs, etc. is produced. Mr. Hoover constantly checks over with his manager, a university graduate farm expert who has the practical knowledge to go with his scientific education.

## TOWN PROGRESS TALKS

The merchant who runs his store as he did 25 years ago is going to lose out in this day of progress, when the demand for the new stuff is so strong. But instead of resenting the more exacting demands of today's shopper, the wise storekeeper welcomes them as opportunities and is out in front leading the parade with every innovation that comes along. He takes a day off frequently and spends it in city shops and wholesale houses, studying the market and observing methods of stimulating trade with novelties, and attractive store and show window display. These things, when adopted in his own store, all bring dollars into the modern merchant's cash register.

## Vinegar Production

Grains—chiefly corn, barley, rye and oats—are largely utilized for the production of spirit and malt vinegar. The starch which they contain is first converted into sugar, usually by the action of malt (sprouted barley). Malt vinegar is made from the sugary solution or wort obtained by steeping crushed malt in warm water.

## Rule for Enjoyment

We all want to enjoy ourselves. But the only successful way to do so is by making oneself into something that is enjoyable. Any other kind of self, no matter how much of a pleasureable surroundings it may be born, will soon quench their brightness, as water quenches fire.—Exchange.

## People Read This Newspaper

## Cakes of Many Sorts

With so many cakes from which to choose when you wish a cake for dessert, you will find it easy to select one to your liking. You may order special cakes, if you will place your order one day in advance.

Home Made Bread  
Antioch Bakery and Confectionery

## Try First at Home

WHETHER it is something we want to buy, or some service we wish performed, why not try first at home? There is not a single one of us in this entire community but what will benefit to an appreciable extent if each member of the community practices this simple rule.

We want our home town to grow and prosper—we want it to be a place in which we will be proud to live. To realize our desires and our dreams of a better home community we must, one and all, do our share toward that end. We must, one and all, do our share toward making it better—and the one big step toward that end is taken when we each one try first to fulfill our needs from home community sources.

## Earth's Gravitation

The Naval observatory says that there is no limit to the distance to which the earth's gravitational pull extends, but its amount decreases in proportion to the square of the distance from the earth's center. At the distance of the moon it is about 1/3,600th what it is at the earth's surface.

## Fine Engraving

Alfred McEwen of New York, who recently engraved the Lord's prayer on a needle, says that the engraving is done by a special reducing apparatus, the diamond point of which does not vary a millionth fraction of an inch. The work is generally done through a magnifying glass.

## Corn Meal Widely Used

Investigations made by the Department of Agriculture show that more than 60 per cent of the food consumed by the people of the United States, on an average, is of vegetable origin, and that about one-seventh of this, or 8.7 per cent of the whole, is corn meal. Of the total protein consumed, animal as well as vegetable, corn meal supplies 10 per cent; of the total fat, 3.8 per cent, and of the total carbohydrates, 15.7 per cent.

## Imported Vegetables

Cucumbers, eggplants and muskmelons, now so common in the United States, came originally from the Old world.
